HASIRU-ECO CLUB REPORT

Name of the Event organised	WORLD WATER DAY
Date and Day	**24/04/2018**
Collaboration or Association	HEALTH CLUB & CIVIL DEPT
Issues addressed	Impact of scarcity of Water, saving water for future use & its significance
Place of the event conducted	Seminar hall, SCE

Report:

Water is the main constituent of earth, oceans and lakes etc. Water is basically a tasteless, odourless, colourless chemical substance that is used for multipurpose utilization. On 24/04/2018 in Sapthagiri College of Engineering, Civil department in association with Health and Eco clubs **"World Water Day"** was celebrated. The main agenda of celebrating world water day is to create awareness regarding saving water for future use.

The dignitaries Dr.K.L Shivabasappa (Principal), Prof. Suvarna (Head of the Department of Civil Engineering), Dr.K.L.Nagabushana (Administrative Officer) and the chief guest Dr.Ramaraju H.K (Head of the Department, Civil engg, Dayanand Sagar College of Engineering) inaugurated the function. This program had a igniting start by lightning a lamp followed by a welcome speech. Students of Civil Engg and volunteers of Health & Eco clubs also presented short movies which gave a message about saving water by avoiding unnecessary flow of water from the tap and rain harvesting. As a part of Celebration, a technical talk was organised from the chief guest Dr.Ramaraju H.K, Head of the Department, Civil Engg, Dayanand Sagar College of Engineering.

The technical talk gave a tremendous knowledge about the comparison between the geographical survey map obtained in 1950 and the map in 2018, which lets us know the deforestation areas in our country and where exactly the problem of scarcity of water is. The talk also gave the precautions to be taken to prevent drought. Also, conveyed the

message about how one can overcome the problems in drought areas. Dr. Ramaraju H.K also gave enormous examples through his talks regarding saving water, rain harvesting, afforestation, drought affected areas which has made a blue print in the minds of students, faculties regarding conserving water for present use and future use. After the technical talk, Dr.Ramaraju H.K was honoured by the dignitaries and the celebration came to an end. Even though the celebration of "World Water Day" came to an end for today, the importance of water, precautions to be taken to not to waste water, rain water harvesting will remain in the minds of the people assembled and also will be put into practice for the betterment of individual and the betterment of the society.	
Impact & Sensitization	Not to waste water, rain water harvesting, saving water
