K. L. Shivabasappa, Principal**, hence for purpose of MOU known as **'Resource Partner'**.
2. Delivery Partner would be offering International Certifications to the interested students from different vendors @ academic discounted price and those students who voluntarily pay the exam fees would be getting bundled training free of cost mapped to the certifications.
3. This contract in no way creates any financial binding nor does it imply that 'resource partner' has committed to provide any fixed number of student's registrations per year for the certification exams /bundled workshops, the only commitment from their end is to provide platform to address students / seminar to educate and motivate them about the various certifications and subsequent permission for registering the students who are **voluntarily interested** for the same.
4. As part of the special offering all exam vouchers provided to students for certifications would have a **second attempt bundled free** in case the student fails to clear the same in first attempt.
5. Delivery Partner would bundle a **'free of charge'** faculty development Program once a year for the faculty members of the **resource partner**.
6. Delivery Partner would also **sponsor certification vouchers for faculty members** equivalent to 10% of the total students enrolled in academic year.
7. Students would be registering directly for the certification exam by making payment to M/s ATS Infotech Pvt Ltd , through online mode .Incase if the **resource partner** collects the payment, the college will share the name of SPOC with whom were the payment needs to be submitted before the seminar is scheduled and the amount would have to be transferred to **delivery partner** max within 7 days, as exam vouchers can only be registered once payment is made. Students would be receiving a conformation mail of their voucher being booked and entitlement to free training/workshop, once they register online.
8. The fee charged is against Microsoft /other vendor Certification exam and all other services like training are complimentary / bundled free and cannot be linked anywhere with the release of payment to **delivery partner** (incase if the certification fees is collected by **resource partner**).
9. Student would be receiving their **transcript and certificates** for the exam directly in their account in e-format, from the specific vendor like Microsoft /Certiport etc. post successfully clearing the exam.
10. Resource Partner would be Provided **15% of the total number of students enrolled as 'Resource Utilization Fees'** against use of infrastructure and other resources for the bundled free training.

Principal
Sapthagiri College of Engineering

 Bengaluru - 560 067

11. Resource Partner would provide necessary infrastructure within college like labs with Computers, LCD Projector's, internet etc. for the execution of the **free training** and conducting the **Certification Exam**.
12. Resource partner would allocate time slot either on weekends/holidays /regular slot for min 6-8hrs or as per mutual consent with delivery partner for execution of **FREE** training in their campus.
13. The duration of the training may increase as per the level of participants and shall not be linked with the release of payments.
14. The **tenure of the contract** would be for a **period of three years i.e. from 03 Oct 2018 to 03 Oct 2021**, same cannot be terminated before a period of one year from the date of signing of the MOU.
15. Prices of the certification are subject to yearly review and revision as per the policy of the Certification vendor and other state and govt taxes as and when applicable by the Govt of India. However a proper communication would be provided, whenever there is impact on the same.
16. **"Resource Partner"** cannot hire or take services from any current full time /part time, ex- employee of the Delivery Partner either directly or indirectly for any full time or part time assignment for minimum period of one year from the date of expiry of contract.
17. **"Resource Partner"** must follow from time to time rules/regulation & operational protocols laid down by Microsoft/ Certiport other international vendors for their respective certification.
18. In case of any dispute ,or difference whatsoever arising between the parties out of or relating to the construction, meaning, scope, operation or effect of this contract or the validity or the breach there of shall be settled by arbitration in accordance with the rules of arbitration of the Indian Council of Arbitration and the award made in pursuance there of shall be binding on the parties, however the court of jurisdiction would be New Delhi.
19. The clause is intended to be legally binding and the parties agree and acknowledge that both the terms of MOU and the discussion relating to the collaborative activity are confidential and neither party will disclose them without the prior written consent of the other party.
20. **Resource Partner** would issue a letter of completion upon successful completion of the certification and bundled training program.
21. Minimum batch size to run a free training/workshop bundled with Certification will be 40-50 students. However in case the numbers are different, than the decision on the same would be as per mutual consent.
22. **Cost of certification Exam** bundled with free workshop.

- Department has a recognized research centre, with faculties in-house and from other institutions pursuing their doctorates and research work.

And whereas the Parties consider it expedient and in their mutual interest to collaborate with each other as strategic partners for undertaking collaborative R&D activities in Advanced Manufacturing, machine tools and related thrust areas of technology for the benefit of the student fraternity and Industry in particular and the Manufacturing Sector at large.

Through discussions and consultations between the Parties and subject to the terms and conditions set forth in this MoU, the Parties record their intentions and understanding as follows:

1. INTENT

CMTI and SCE have entered into this MOU to further their mutual intentions to jointly work on R&D in Design and Manufacturing Engineering and also in areas like Micromachining, Green Manufacturing, Industrial Ergonomics and other advanced Manufacturing Technology areas.

Both the parties agree that they shall harness their complimentary resources (the resource persons/faculty, the Graduate/PG/Doctoral student fraternity of SCE and the Scientists of CMTI would collaborate and leverage the facilities available at CMTI and SCE) and expertise to work together to pursue co-operative research activities for the benefit of the manufacturing and machine tool sector at large.

Both the parties, in line with the recitals, will agree upon detailed plan and conditions of co-operative activities.

2. OBJECTIVES AND SCOPE:

The primary objectives of this MoU are:

- a. SCE and CMTI to recognize each other as Centre of Excellence for Academic and Research collaborations and to share their facilities and resources for research and other mutual benefits.
- b. To undertake collaborative research in
 - I. Design, Manufacturing Engineering, Material Sciences, Surface Engineering

For SCE

For CMTI

- II. Emerging areas like Micromachining, Green manufacturing, Industrial Ergonomics and other advanced Manufacturing Technology areas.
- c. To design industry focused curriculum with a Vocational and Research orientation for select Engineering and Management streams of study and launch Certificate, Diploma, Degree and PG courses.
 - d. To seek CMTI's expertise to revitalize and upgrade the research potential of SCE.
 - e. To undertake joint research activities with National and International Funding support (for ex. GOI S&T agencies like DST, CSIR, SERC, etc.)
 - f. SCE to offer PhD and MS programmes for CMTI Scientists engaged in research and management activities.
 - g. CMTI may offer full semester industry relevant PG projects at CMTI to the eligible final year students of SCE, subject to their meeting CMTI's prescribed selection criteria and availability of projects & project guides.

This list may be extended and/or amended with mutual agreement in writing based on emerging needs.

3. RESPONSIBILITIES OF CMTI & SCE

- a. To identify specific contextual research themes/projects in consultation with stake holders including industry, as appropriate.
- b. Form Research teams consisting of CMTI scientists and SCE faculty, on a project-to-project basis.
- c. Identify and establish a cost model for sourcing necessary materials, facilities/equipment, consumables, etc. The facilities/resource persons can be sourced either from sponsor, CMTI or SCE, or others on a project-to-project basis.
- d. To formulate, design and offer co-branded, Industry focused programmes under Academy of Excellence for Advanced Manufacturing Technologies (AEAMT) under CMTI and SCE.

4. OUTCOMES / DELIVERABLES:

- a. Development of Job Ready man power for the Manufacturing Sector.
- b. Knowledge Up gradation and Research Capability Enhancement of the SCE Faculty.
- c. Opportunities for Qualification enhancement of CMTI Scientists.

- d. Development of capabilities and institutionalized platforms to work on the futuristic requirements of the Manufacturing Sector.

5. CONFIDENTIALITY:

- a. Both SCE and CMTI acknowledge that certain Confidential information may be disclosed by one party to the other (the Party that owns and/or discloses the Confidential Information is hereinafter referred to as the "disclosing party" and the Party receiving or accessing such Confidential Information is referred to as "receiving party") during the tenure of this MoU or performance of the respective obligations under the resultant definitive agreements hereunder.

Confidential Information means all information identified as "Confidential", including but not limited to information concerning the trade secrets, intellectual property rights, know-how, formulae, processes, inventions, data, network configurations, system architecture, designs, flow charts, drawings, proprietary information, data or materials related to business, services, products, customers, employees, finances or operational information of either party, and any other confidential or proprietary information the disclosure of which might harm or destroy a competitive advantage of the disclosing party. The mode of communication of information:

- i. Written
- ii. Oral
- iii. Electronic or any other form
- iv. Both Technical & Non-Technical information

The receiving party shall not, directly or indirectly, disclose to any third party other than its employees, affiliated companies, and authorized agents any information concerning the disclosing party's business methods, products, customers or finances, or any other Confidential Information which is disclosed to it by the disclosing party, without the prior written permission of the disclosing party, unless such disclosure is specifically required in the course of the performance by the receiving party of its obligations hereunder or under the resultant definitive agreements. The obligations of receiving party under this Section shall not extend to any information which: (i) is or becomes a matter of public knowledge, not as a result of any action of the receiving party; (ii) is lawfully in the possession of the receiving

- party prior to a disclosure hereunder; (iii) is received from a third party who lawfully acquired such information without restriction, and without a breach hereof, by the receiving party; (iv) is disclosed by the receiving party with the disclosing party's prior written approval (v) the information is independently developed by the receiving party, without use of the disclosing party's Confidential Information; (vi) is disclosed by the receiving party under operation of law or regulation or legal process;
- b. The Parties acknowledge that this MoU contains confidential information that shall be considered proprietary by both Parties, and agree to limit distribution of or disclosure about the Confidential Information hereunder and/or this MoU to those persons who have the access to confidential information within their respective organizations with a legitimate need to know the contents of this MoU. Neither party shall publicize or make any public announcement concerning the terms or nature of the relationship or this MoU without the prior written consent of the other party.
- c. SCE and CMTI both acknowledge that any breach by them of their respective obligations under this Section may cause irreparable harm to the other party for which its remedies at law may be inadequate and that in the event of any such breach either party shall be entitled to seek equitable relief (including without limitation injunctive relief and specific performance) in addition to other remedies provided hereunder or available at law.

Upon termination or dissolution of this MoU, or upon earlier demand thereof, each party shall at the other party's option, either destroy underwritten certification of such destruction or return to the other party all properties containing the other party's confidential information and copies thereof in its possession. The deletion of information from the following sources:

- i. Computers
 - ii. Servers
 - iii. Storage devices, to the extent of failure to destroy the data, corresponding obligations are preserved.
- d. The Confidentiality Obligations under this Section shall survive during the term of this MoU and 3 years thereafter.

6. INTELLECTUAL PROPERTY RIGHTS:

By entering into this MoU the Parties undertake:

1. To protect each other's intellectual property.
2. Not to use each other's intellectual property without the prior express written consent of the other.
3. Ensure the confidentiality of such intellectual property as provided in Section on Confidentiality and
4. Not to use each other's intellectual property should this MoU be dissolved or terminated at any time.
5. To render itself liable, in case of infringement, to all such damages, penalties, actions as available to the other party under the law.

The Parties agree that neither of them shall gain by virtue of this MoU any rights of ownership or any other interest, right or title of copyrights, patents, trade secrets, trade marks, or any other intellectual property rights owned by the other party, and nothing herein shall mean nor shall be construed to mean that they are at any time assigned, licensed or otherwise alienated to the other party, nor the other party shall be entitled to claim any right, title or interest therein, at any time. All new inventions, innovations or ideas developed in the course of providing services to a client shall belong to the party who develops them during the project/assignment. If the Parties undertake any joint development in the course of providing services to a client or under this MoU, any such joint development will be governed by a separate agreement to be negotiated in good faith by the Parties.

7. GOVERNING LAW & ARBITRATION.

In the event of any dispute or difference arising out of or in connection with this MoU shall be settled by the Parties by mutual negotiations. Any unsettled dispute or difference shall be referred to the arbitration of three arbitrators, of which one shall be appointed by CMTI and the other by SCE. The two arbitrators shall then appoint a third arbitrator before entering upon the reference. The Arbitration proceedings shall be regulated by the provisions of the Arbitration and Conciliation Act 1996 and the venue of the arbitration shall be Bangalore, India. The language of Arbitration shall be English. The arbitrators may from time to time with the written consent of Parties enlarge the time for making and

publishing the award, which will be binding on the both Parties. The governing law for the purpose of this agreement shall be India. All the courts in Bangalore shall have jurisdiction to try the disputes under this agreement.

8. TERM OF MoU:

This MoU shall be effective from the date of execution hereof and shall remain in force for a period of 3 years or until terminated by either party as above or replaced by a definitive Strategic Alliance Agreement between the Parties whichever occurs first. The Parties may mutually agree to extend the period of this MoU.

9. TERMINATION OF MOU:

- a. Either party shall, upon written notice of sixty (60) days to the other, withdraw from or terminate negotiations or terminate this MoU at any time without cause, and no such withdrawal or termination, for whatever reason will be deemed to be in bad faith, or otherwise give rise to any liability to either party (other than any liability arising from such Party's breach of Confidentiality Obligations, Intellectual Property and liability to make payments to each other for any payment then due and payable as specified in and any other breach of the respective binding definitive contract between the Parties relating to their mutual engagement in projects) Provided that the projects already accepted for implementation will be completed by each party performing the activities and discharging the obligations assigned to it pursuant to the relevant definitive agreement and the Parties agree that all such activities and transactions will be governed by the relevant definitive agreement, notwithstanding the termination of the MoU. On the termination/expiry of this MoU each party will return all property belonging to the other party and hereby undertakes not to use the said proprietary or Confidential information / trade secrets of the other party in any manner whatsoever without seeking the prior written consent of the other party.
- b. Either party shall also be entitled to terminate this MoU for cause in the event of:
 - I. Breach by the other Party of the terms and conditions of this MoU and its failure to remedy such breach within a period of 30 days from date of receipt of a written notice in this regard from the non-breaching party.
 - II. The filing by or against the other party in any court of competent jurisdiction of a petition in bankruptcy or insolvency, or for a scheme of rearrangement

(reorganization) with creditors, for the appointment of a receiver or trustees; or the making of an assignment for the benefit of creditors, and such petition is not discharged within 60 days of its filing.

10. AMENDMENT

This MoU may be amended or supplemented only by written document that makes specific reference to this MoU and which is signed by the party against which enforcement of any such amendment or supplement is sought.

11. WARRANTY

Each Party warrants to the other Party that to the best of its knowledge all materials, data, information and other assistance provided by it shall not infringe third party rights.

IN WITNESS WHEREOF, each party has caused its duly authorized representative to execute this MOU as of the date stated above.

MEDINI – Company Profile

MEDINI is a leading provider of design technology and services to engineering, construction and architecture professionals. With over many years of experience, we provide the expertise, training and support to help companies & Academia to realize the full power of their design technology. We partner with the world's leading providers of CAD, CAE, PLM software, hardware, 3D printers such as Autodesk, PTC, Ansys, Altair, Siemens, Adobe, Bently, Primavera, Microsoft to provide local service with the support of global resources. These relationships allow us to deliver complete end to end solutions tailored to meet unique requirements.

Committed to providing quality education to cultivate knowledge, professionalism and new talents for the evolving creative industries, we adopt a "Think and Do" approach through contemporary curriculum and active collaborations with industry.

MEDINI School of Design-MSD

Signing up with the Technical institutions MEDINI started bridging between students and industries. Our corporate clients kept us updating about the present requirement of the industries. Autodesk, Bently, Ansys, Primavera, PTC & other software companies made us to understand the features and functionality of the latest software releases. Considering this we ensured that the new technology reaches to the candidates on time and to prepare them for the real world.

We are supporting the Academia in terms of Software and training their candidates on the latest technologies. We not only train the candidates about the software tools, we train them how exactly industry work on it. Our training program is a project oriented where in with the Certified Professional even industry experts help the candidates to understand the scenario of the software.

Committed to provide quality education & cultivate knowledge, professionalism and new talents for the evolving creative industries, we adopt a "Think and Do" approach through contemporary curriculum and active collaborations with industry.

Autodesk Academic Partners (AAP) provide customized training and support services on software to educators, schools, colleges, and universities which shape the future of design engineering education and aid in successful adoption of Autodesk solutions into the curriculum, while preparing students for an always-changing world in which design will play a pivotal role.

Enhance student and educator skills with Autodesk software, integrate it into curricula and projects, and build a pool of on-campus faculty and student experts with real-world design skills.

Product Support

We help you select the right software tools for your needs, including hands-on support, which enables integration of the technology into curriculum

Project-focused training

We provide sample projects and coursework to help the students and validate their skills, boost career opportunities, and build their experience through a project-focused learning experience

Certification & Partition

Delivering Continuous Learning

Maximize the productivity of your project with learning programs designed to meet your unique needs. Take live instructor-led classes online, or take advantage of on-demand, self-study courses. Bentley Institute's learning programs not only give you the opportunity to advance professional growth—they enable you to adapt to the ever-changing needs of your organization, the colleagues you work with, and the industry in which you work.

The future of the infrastructure industry depends on today's students. Bentley's Academic Program provides educators with the resources to prepare students for careers with great companies. Students can gain a competitive edge in the classroom and with potential employers. In turn, infrastructure industry professionals can recruit qualified applicants and higher quality talent. The program provides access to the software and training you need to learn best practices for advancing infrastructure. Multiple programs are available to connect Bentley infrastructure experts with educators, through online events and on-campus networking opportunities.
