About Conference

Present global scenario demands unprecedented actions and efforts across multiple convergences of social, economic and environment issues.

Science, Technology and Innovations in the area of Internet of Things, Artificial Intelligence, Bio-Technology, Nano Materials and Renewable Energy must play a key role in achieving these goals. Also this is the era of start - ups, to achieve ambitious dream of Make in India concept.

With this motive, Sapthagiri College of Engineering, Bengaluru is organizing an International Conference "Global Convergence in Technology, Entrepreneurship, Computing and Value Engineering: Principles and Practices" (ICGCP-2021).

The conference covers all emerging area of Science, Engineering and Technology. It gives an opportunity for expertise across the Globe to share their views in their areas.

About the Institute

Sapthagiri College of Engineering was established in the year 2001 by Srinivasa Educational and Charitable Trust with a vision to transform the students into competent, inspired and responsible professionals in technical field to fulfill needs of the society. SCE is well known for its academic excellence with well qualified faculty and state of art infrastructure and imbuing good moral values, ethical values, success in education and developing leadership qualities among the students.

VISION :

To be a Best Institution imparting quality engineering education to deal with community needs through learning and performance.

MISSION:

M1 - To implement path breaking student centric education methods.

M2 - To augment talent, nurture teamwork to transform to develop individual as responsible citizen.

M3 - To educate the students and faculties about entrepreneurship to meet vibrant requirements of the society.

M4 - To Strengthen Industry-Institute Interaction for knowledge sharing.

Sub Themes

Electrical Sciences

(EEE & ECE Department)

CODE : ICGCP - 1

- ◆ Power system, control system and automation
- ◆ Next generation computing in electrical engineering.
- ◆ Signal Processing, Communication Engg and Artificial Intelligence
- ◆ VLSI and Embedded Systems.

Chemical Science

(Chemistry & BT)

CODE : ICGCP - 2

- ◆ Drug design and computational biology
- ◆ Green Chemistry & Industrial biotechnology
- ◆ Material Science & Nanotechnology
- ◆ Plant & microbial secondary metabolites

Computer Sciences

(CSE & ISE)

CODE : ICGCP - 3

- ◆ Emerging Technologies in ML, IOT and Neural Networks
- ◆ Graph theory in Big data analytics and Knowledge Engineering.
- ◆ Virtual & Augmented reality
- ◆ Artificial intelligence and reasoning

Mechanical Sciences

(ME, CV, Physics & Mathematics)

CODE : ICGCP - 4

- ◆ Composite Materials, Thermal science and CFD
- ◆ Finite Element Analysis.
- ◆ Material Physics
- ◆ Nanotechnology/Nanomaterials
- ◆ Latest developments in Structures
- ◆ substructures and construction management
- ◆ Advances in water, waste water and transport technology.

Note:

- ◆ The Papers are accepted other than the above themes in the field of Engineering and Technology.

Guidelines for formatting a paper in IEEE style :

The paper title should be centered at the top of the first page, in 24-point type. The byline should be centered below the title, after a line break, in 10-point type. It should contain the following, on separate lines: Author's name (or authors' names), Author affiliation(s), City & country location(s), E-mail address(es). The body of the paper should be in 10-point type, and formatted to appear in two columns. The columns on the last page should be the same length. All papers must begin with an abstract and index terms. Papers may be divided into sections and subsections; figures, tables, and equations should each be numbered consecutively, but separately. They should also be centered in the column in which they appear.

About the FDP

Internet of Things(IoT) have produced profound impacts to our everyday life and are hands in hands to offer better quality of services, better fusion of technologies, instant communications and express deliveries of services. This FDP is intended to provide deep insights of cutting edge technologies in IoT domain.

Pre-requisite

- Basics concepts of IoT.
- Data and Artificial Intelligence(AI)

Objectives of FDP

This FDP aims to make the Participants realize the importance of IoT and its applications in various fields on specific applications to IoT, so that participants can learn to build their own IoT products for various applications, and it also enables them to convert their product ideas into a working prototype.

About College

There is a dearth of qualified engineers who are equipped to take on the challenges of the new economy. To help the country fulfill this need was born the "Sapthagiri College of Engineering & Technology (SCE)" in the year 2001, a college with a vision to shape up professionals in the field of technology. The brainchild of a group of visionary entrepreneurs, who have formed Sri Srinivasa Educational & Charitable Trust the trust also runs Sapthagiri Institute of Medical Science & Research Centre, Bangalore. SCE is on a mission to enable Indian Engineers to take our country to a global leadership status in technological development.

The institute is affiliated to VTU, recognized by AICTE & ISO 9001-2015 and 14001-2015 certified. It offers B.E. in Computer Science & Engineering, Information Science & Engg, Mechanical Engineering, Electrical & Electronics Engg, Electronics & Communication Engg, Bio-technology and Civil Engg.

About the Department

The department of Computer Science & Engineering had its beginning in the year 2001. It currently offers Bachelor of Engineering (B.E) degree with an intake of 120, and also Ph.D program. The primary focus of the department is to produce highly competent IT professionals, who can be readily acceptable by the industry. To motivate and orient the students to achieve academic excellence, the technical workshops, expert lectures from eminent speakers, conferences and competitions are organized on a regular basis in addition to the regular class room teaching from highly dedicated team of faculty.

Scope and Outcome of FDP

Computational biology is different from biological computing, which is a subfield of computer science and computer engineering using bioengineering and biology to build computers. Also it is similar to bioinformatics, which is an interdisciplinary science using computers to store and process biological data.

The Five day FDP provide better insight on basic understanding of computational biology and its application in ligand and protein interaction, drug design and modeling and so on...

It provide good platform for faculty members to widen their knowledge in their teaching and research field.

ABOUT SCE

Sapthagiri College of Engineering was established in the year 2001 by the Srinivasa Educational and Charitable Trust(R) to implement path breaking student centric education methods. Strengthen Industry- Institute Interactions for knowledge sharing. SCE has the most advanced laboratories for practical training, state of the art computing facilities and spacious classrooms with good infrastructure. The Institution has collaborative & extension activities with various organizations for fostering Academic/Industries/ Research/ Innovation. The organization provides an ideal ambience to stimulate the teaching-learning process, leadership skills, helping in bringing out skillset to conduct research and development.

ABOUT CHEMISTRY DEPARTMENT

The department was started in the year 2001 and it is recognised as a Research Centre in the year 2015 by Visvesvaraya Technological University (VTU), Belagavi.

The department has state of the art laboratories and it is working in many thrust areas of research & has produced publications in various National and International peer reviewed journals. Excellence in research and teaching has been the hallmark of departments ever since its inception.

SCOPE OF THE PROGRAM

Material science in recent years leading to the development of several novel and innovative tools & techniques. The objective of FDP is to summarize and gain the knowledge in the field of material science. This program is aimed to provide the theoretical knowledge in the area of material science and technology.

COURSE CONTENT

Topics will provide an overview as well as some insight into the research issues being undertaken in material science.

Key Resource Persons:

Dr. Ashok kumar Shukla

Dept. of Chemistry,
East point college of Engineering & Technology,
Bangalore.

Topic: Advanced polymer nano composite for Engg. Applications.

Dr. S Girish Kumar

Dept. of Chemistry,
CMR University Bangalore.

Topic: Plasmonic Au-ZnO photocatalyst.

Dr. Santhosh M S

Center for Incubation Innovation & Research
Consultancy,
Jyothi Institute Of Technology, Bangalore.

Topic: Nano & polymer composites: Material with Multifunctional potential.

Dr. Mahesh B

Dept. of Chemistry, JSS Academy of Technical
Education, Bangalore.

Topic: Synthetic Peptide- based materials for
biomedical applications.

Dr. J SS Allwin Ebinesar

Dept. of Bio- Technology,
Sapthagiri College of Engineering , Bangalore.

Topic: Development of biomaterials for the waste
water treatment.

FDP CELL

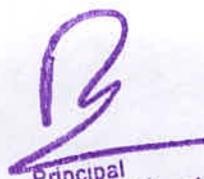

Annual Report: AY_ 2020-21

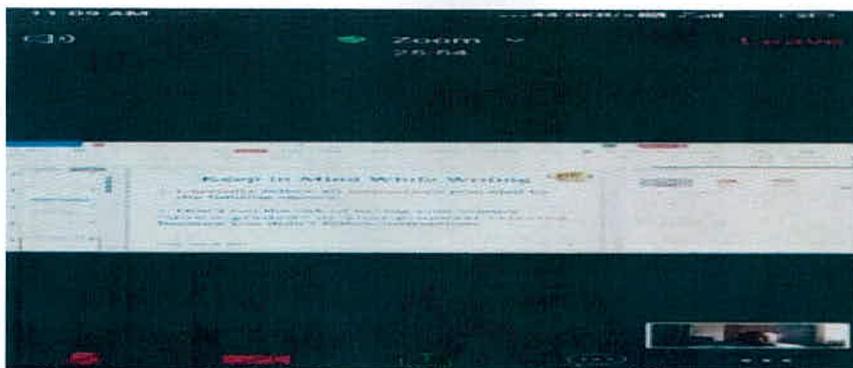

- ❖ The Dept. of EEE had organized 5 days FDP on Recent Trends in Power System Engineering from 05-07-2021 to 09-07-2021. The distributed generation, Solar P V System, HVDC transmission system, Microgrid, ethics, and technology management were the main sessions of discussions.

- ❖ The Dept. of ISE had organized 5 days of FDP on the Internet of things (IoT) and its applications, from 14-12-2020 to 18-12-2020. The basics of IoT, hands-on IoT using simulation tools, data and analytics for IoT, Emerging areas of IoT were the main sessions of discussions.
- ❖ The Department of Biotechnology and Chemistry jointly organized the Five days e-FDP (05-06-2020 to 10-06-2020) by keeping an objective to provide insight on the use of nanometals in drug delivery and medicine through which faculty can update their knowledge in nanoscience. The eminent speakers from different institutions across Karnataka who had worked in this domain shared their knowledge and information through lectures using the zoom platform.

Dr. H P Nagaswarup delivering a talk on “Flourishing research grant applications”

- ❖ The Department of Chemistry organized the Five days e-FDP (02-11-2020 to 06-11-2020) on recent trends in material science through which faculty can update their knowledge in material science. The eminent speakers from different institutions across Karnataka who had worked in this domain shared their knowledge & information through lectures using Zoom Platform. The session was started by a welcome speech from Dr. B S Krishna, HOD Chemistry, and followed by the Inaugural speech from Dr. H Ramakrishna, Principal, SCE.

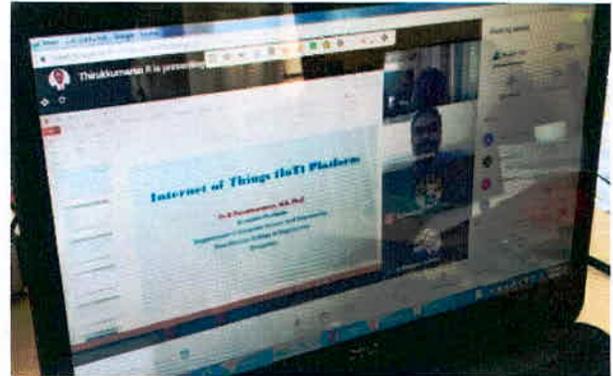

Glimpses of the Event

- ❖ Online, One Week Faculty Development Programme on “IoT Applications” in collaboration with External Resource persons was organized by the Department of Computer Science and Engineering at Sapthagiri College of Engineering, Bangalore from 22nd – 27th February 2021. This program was a combination of theoretical talks & hands-On experiments. This FDP aims to provide opportunities to faculty members to enrich their technical knowledge in the field of IoT and its Applications. The Programme also intends to develop the knowledge of participants for the Internet of Things in the relevant field for

inculcating learning values in students, guiding and monitoring their progress. The FDP was attended by faculty members of Computer Science and Engineering, Information Science and Engineering. There are a total of 60 participants were registered.

Glimpses of the Event

❖ 3 days Faculty Development Program on “Surveying Training using Total Station” was conducted at Sapthagiri College of Engineering Campus by the Department of Civil Engineering from 22nd March 2021 to 24th March 2021. The program was attended by the HOD and all the Faculties of the Civil Engineering Department.

Dr.Manjunath G R (Head of the Department, Department of Civil Engineering) explained the importance of the FDP program and its necessity for the faculties. Prof. also enlighten us about the need for Total Station and how is helping the needy unemployed by creating job opportunities by training about the Total Station. He also said that he is helping the Civil students of the final sem of different engineering colleges by providing them training as per the industry expectation and helping them to get placed easily.

- ❖ Department of Mechanical Engineering, Department of Mathematics, and Department of Civil Engineering, in association with CMTI, Bengaluru have conducted a 5-day FDP on “Recent Trends in Fluid Dynamics” during November 17 – 21, 2020.

The event got a great success. The resource persons from various countries shared their views on the latest trends in their respective areas. Totally 200 participants from seven states across India and many faculty/researchers from abroad registered for the event. The topics discussed in FDP, range from theoretical Heat and Mass Transfer to Computational Fluid Dynamics. Seventeen lectures were arranged during the FDP.
