BrailleBlaster

A New Choice in Braille Transcription Software

BrailleBlaster™ is a braille transcription program developed by the American Printing House for the Blind to help transcribers provide blind students with braille textbooks on the first day of class.

American Printing House for the Blind, Inc.

What is BrailleBlaster?

BrailleBlaster takes advantage of the rich markup contained in NIMAS (National Instructional Materials Accessibility Standard) files to automate basic formatting and gives you tools to make advanced tasks quicker and easier. Designed primarily for editing textbooks that meet the

Bangalore- 560 057

specifications published by the Braille Authority of North America, the purpose of BrailleBlaster is to help braille producers ensure that every student has their braille textbooks on the first day of class.

BrailleBlaster relies on Liblouis, a well-known open-source braille translator, for translating text and mathematics to braille.
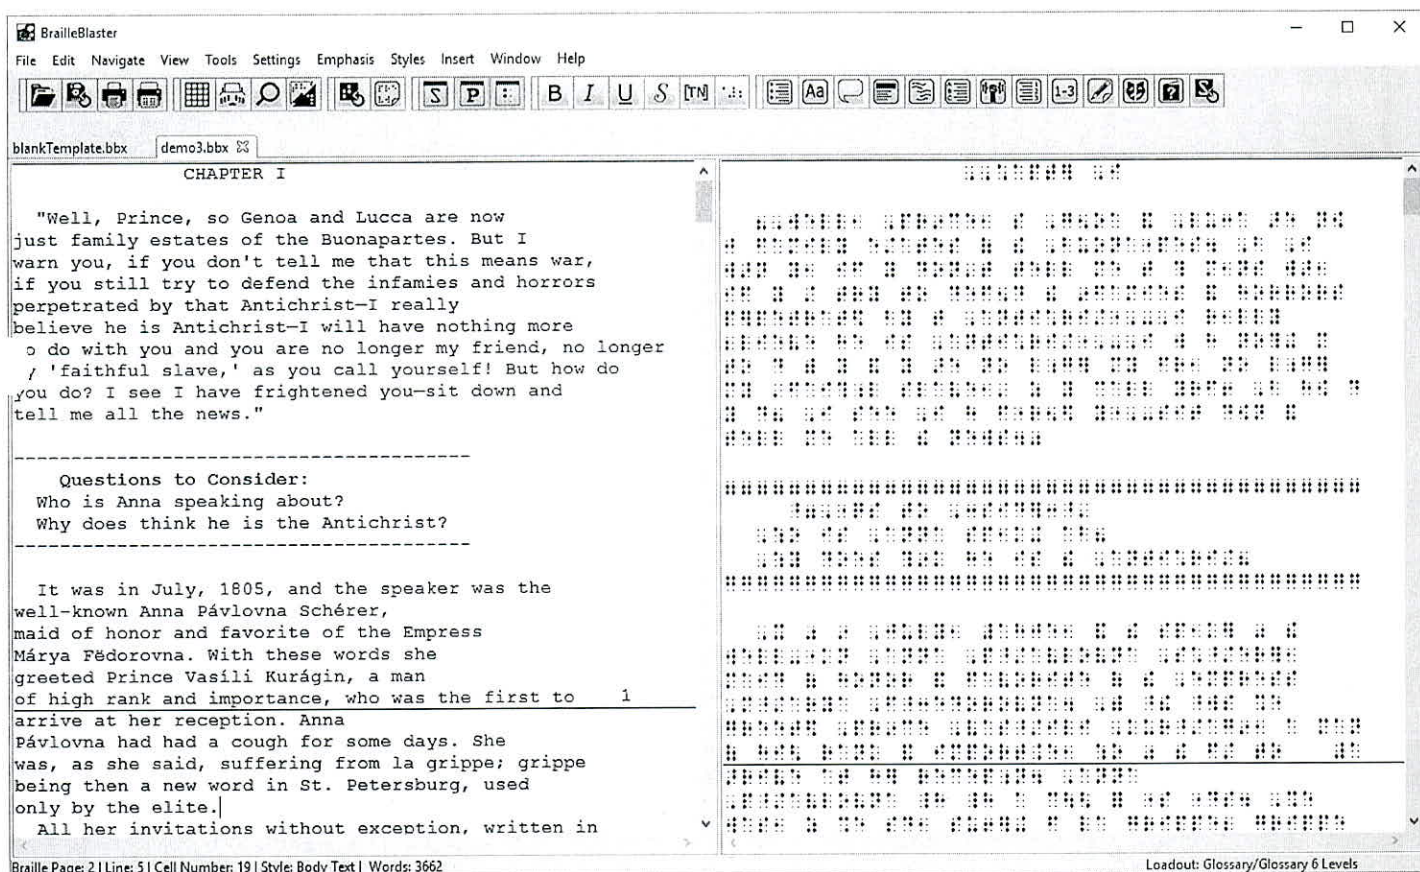

BrailleBlaster Features

- Translate braille accurately in UEB or EBAE
- Format braille
- Automate line numbered poetry and prose
- Split books into volumes
- Add transcriber notes
- Describe images
- Automate braille table of contents, glossaries, preliminary pages and special symbols pages
- Automate a variety of table styles
- Translate and edit single line math
- Do much more!

The development of BrailleBlaster and modifications to Liblouis are part of the REAL Plan (Resources with Enhanced Accessibility for Learning). The REAL Plan is an ongoing initiative of the American Printing House for the Blind to improve the conversion and delivery of braille and other accessible

INDIAN BRAILLE TRANSLATOR

I NDI AN BRAI LLE TRANSLATOR

Indian Braille Translator has been developed in India and supports translation of Indian languages to Braille. It's main features are:

a) Compatible with Braille Embosser & Braille Display
The software is compatible with Index Braille Embossers. File translated can be sent for printing to an Index Embosser directly from the software.
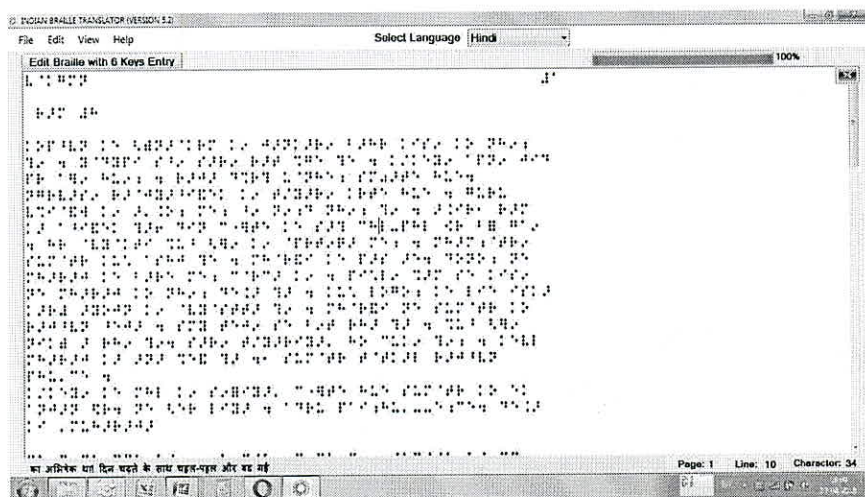

The translated file can be saved in BRF format and then transferred to a Braille display for reading in Braille.

) File formats
Supports opening of txt, doc, docx, rtf & brf formatted files. The translated file can be saved in BRF format

c) Page formatting
Set the page formatting as per characters per line, lines per page & page numbering.

d) Language Support
The software supports translation of Hindi, English, Marathi, Sanskrit, Gujarati, Urdu, Oriya, Tamil, Assamese, Bengali, Telugu, Punjabi & Kannada.

e) Editing & Six Key entry
The software supports editing of Braille files and six key entry system by which you directly type in Braille.

f) Updates
All the future updates of the software are free of cost

g) Buy Once, Use for Lifetime
The software is activated via internet. It also has deactivation feature. You can de-activate your PC and activate on another PC any time you want.

h) Local Support
The software has been developed in India and if there is any issue your problem will be resolved
