Name/Title of the Activity/Event	International Conference ICGCP-23
Date of Organization	05 to 07, May 2023
Venue	Dept. of CSE, Sapthagiri College of Engineering
Objectives of the event/activity	To evaluate the Research knowledge of the participants within academics as well as beyond academics and to share their research outcomes with other participants. The main objective of organizing Conference is to make aware of recent technologies and innovation to other researchers.
Participants	47 paper received
Mention organized	Dr. Praveen Kumar K V

Event Description:

Department of Computer Science & Engineering in associated with all other branches of sapthagiri college of engineering, VTU, CSI, IIIE, CMTI, INVEST, VOLVO organized International conference on 5TH to 7TH May 2023. We have received 47 papers from different places. Dr. Marc Pauwels president of the German value management society, and Dr. Ganga Reddy, Director HCL Technologies, R&D Services have given the key note address from 10.00 am to 11.30 am. 11.30 am to 4.30 pm about 23 researchers has presented their papers in front of session chair Dr Hemalatha, Professor & Head, Dept. of ISE SKIT, Bangalore and Dr. Praveen Kumar K V Professor, Dept. of CSE, SCE Bangalore along with other research scholars. Second day on 6th May about 24 students has presented papers in front of session chair Dr. Kamalakshi Naganna Professor and Head Dept. of CSE SCE, Bangalore and Dr. Lavanya NL, Assoc. Professor Dept. of CSE, SCE Bangalore.

This International Conference has provide the platform to exhibit their knowledge on research and new innovative thoughts. It help other to aware of recent technologies and on-going researches. Present global scenario demands unprecedented actions and efforts across multiple convergences of social, economic and environment issues. Science, Technology and Innovations in the area of Internet of Things, Artificial Intelligence, Bio-Technology, Nano Materials and Renewable Energy must play a key role in achieving these goals. Also this is the era of start - ups, to achieve ambitious dream of Make in India concept. With this motive, Dept. of CSE, Sapthagiri College of Engineering, Bengaluru is organizing an International Conference "Global Convergence in Technology, Entrepreneurship, Computing and Value Engineering: Principles and Practices" (ICGCP-2023).

About College

Sapthagiri College of Engineering was established in the year 2001 by Sri Srinivasa Educational and Charitable Trust with a vision to transform the students into competent, inspired and responsible professionals in technical field to fulfill needs of the society. SCE is well known for its academic excellence with well qualified faculty and state of art infrastructure and imbuing good moral values, ethical values, success in education and developing leadership qualities among the students.

Vision

To be a Best Institution imparting quality engineering education to deal with community needs through learning and performance.

Mission

M1 - To implement path breaking student centric education methods
M2 - To augment talent, nurture teamwork to transform to develop individual as responsible citizen.
M3 - To educate the students and faculties about entrepreneurship to meet vibrant requirements of the society.
M4 - To Strengthen Industry-Institute interaction for knowledge sharing.

Sub Themes**Computer Sciences ICGCP 1**

- Emerging Technologies in AI & ML
- IoT and Neural Networks
- Graph theory in Big data analytics and
- Knowledge Engineering.
- Virtual & Augmented reality
- Artificial Intelligence and reasoning

ICGCP 2 Electrical Sciences

- Power system, control system and automation
- Next generation computing in electrical engineering
- Signal Processing.
- Communication Engg and Artificial Intelligence
- VLSI and Embedded Systems
- Value Engineering

ICGCP 3 Mechanical Sciences

- Composite Materials, Thermal science and CFD
- Finite Element Analysis
- Material Science
- Latest trends in Physics
- Nanotechnology/Nanomaterials
- Latest trends in Structural Design
- Construction management
- Advances in water, waste water
- Transportation technology
- Value Engineering

Chemical Sciences ICGCP 4

- Drug design and computational biology
- Green chemistry and sustainable development

About the Speaker

Marc Pauwels is with Krehl & Partner, Germany's leading VA/VE Consultancy since 1999. Since 2003, he is one of the presidents. His consulting focus is planning and conducting VA/VE projects in order to optimize existing or to-be products and processes, mainly in machinery and plant engineering.

Since his start with VA/VE/VM, Dr. Pauwels performed hundreds of VM-related studies in Germany, whole Europe, USA, Mexico, Singapore, Saudi Arabia and China and trained personally thousands of future VA/VE specialists. In parallel to his work and from 2001 to 2019, Dr. Pauwels was president of the German Value Management Society. Since 2018, he is president of the parent society within the VDI, with around 40,000 assigned members. In SAVE International, Dr. Pauwels is Director of Global Affairs and thus member of the Board. In 2018, he became a member of the SAVE College of Fellows. Since 2005, Dr. Pauwels has a university teaching position at the University of Pforzheim, Germany. Here, he is teaching Master Students of Mechanical Engineering in VA/VE.

Dr. Ganga Reddy C is presently associated as operations Director with HCL Technologies Engineering R & D Services, Bangalore. Dr. Reddy is basically a Mechanical Engineer with over 25 years of cumulative experience in New Product Development, Computer Aided Engineering, Testing, Validation and Academics.

Presently, Dr. Reddy is performing the role of Head of business excellence group consisting competency centers (Product Reliability, Product Cost Management, Value Engineering, Manufacturing Engineering Services & Academics). Skilled in acquiring and supervising project operations involving resource planning, Customer engagement, technical reviews and team building. Proven track record in building mutually beneficial relationships with global customers.

Event Description:

A one day Industrial visit to **Indian space Research Organization (ISRO)**, Bangalore was organized by the Department of Computer Science Engineering on 27th April, 2023 with the lead role taken up by our beloved Head of the department **Dr. Kamalakshi Naganna** to organizing the visit. It was a half day visit comprising of 62 students of 2 sections from 6th semester along with faculties **Prof. SheelaRani C M** and **Prof. Hemalatha K**. The objective of the visit was to provide a Technical Exposure to the students about Space Technology and advancements in Technology. The visit not only provided a good insight into the quality of research happening in the area of space technology but also gave great exposure to the students about the future career prospects and areas of research in applied sciences. The Industrial Visit was a great benefit for the students to directly understand about the various concepts of satellite and space missions done by ISRO.

STUDENT EXPERIENCE ON INDUSTRIAL VISIT

A REPORT ON ONE DAY INDUSTRIAL VISIT

A batch of 6th semester students of Department of Computer Science and Engineering along with faculties Prof. Sheelarani C M and Prof. Hemalatha K visited Indian space Research Organization (ISRO) at old airport road in Bangalore.

We had the opportunity to see the electronic components and other resources used in the development of satellites. We were briefed about the future projects of ISRO such as Gaganyaan and the 'clean room' concept for assembling of satellites were shown to us. Currently scientists were working on OCEANSAT-2 which will be launched in 2022/2023. A video depicting the moon mission of 'Chandrayaan' was also displayed. Along with the videos the information about various components in the satellites and their purposes were explained. We were also told how the fishermen are benefitted by OCEANSAT. We were also told about factors affecting the satellite such as the temperature fluctuations, vibrations etc. The scientists also told that the above mentioned conditions are simulated and the satellite is tested against the conditions before sending it for a launch. We were also informed about the heights at which different types of satellites operate. At last, the question and answer session was really informative as scientists answered many of the doubts which students had about satellite launching and conditions under which satellites operate at the outer space.

Event Description:

Alumni talk was conducted for the benefits of enhancing and improving the knowledge of students on trending technologies with industry perspective for 4th semester students of Department of Computer Science and Engineering, Sapthagiri College of Engineering, Bangalore on 28th July 2023. Alumni spoke about scrum and sprint in agile software development. Scrum is an agile project management framework that helps teams structure and manage their work through a set of values, principles, and practices. Scrum describes a set of meetings, tools, and roles that work in concert to help teams structure and manage their work. Sprints are at the very heart of scrum and agile methodologies. A sprint is a short, time-boxed period when a scrum team works to complete a set amount of work.
