Article 5. Intellectual Property Rights

- 5.1 The Second party will be expected to ensure protection of the Intellectual Property Rights generated or likely to be generated during the student's research work. The ICAR as the first applicant (for its institute) and the Second party shall be the joint applicants for IPRs and the students and involved scientific staff shall be included as the inventor/breeder/author. The 'ICAR Guidelines for Intellectual Property Management and Technology Transfer/Commercialization' as amended from time to time shall be the reference for exploitation of the generated intellectual property, whose management and benefits sharing shall be mutually decided in each case.

Article 6. Admission and Fees

All those who wish to register as trainees or for Master/Doctoral programme under this MoU must apply for admission at the Second party. The allocation of Major Guide/Advisor would be finalized before the registration and will be governed by the provisions laid out in Items 3.2.1A and 3.2.2A of the Guidelines for the students to conduct research for their degree programmes as trainees at ICAR institutions as notified *vide* Letter No. 2-8/2012-HRD dated 25th April, 2014 or revised Guidelines, if any, as may be issued from time to time, for the students from within NARS and outside NARS, respectively.

Admission of the students and the award of degrees for different programmes will be the responsibility of the Second party as per the rules and regulations.

Allotment of the students at the First party will be done by the approval of Director of the First party and Vice-Chancellor/Head of the Institution of the Second party.

The First party would have the right to screen the student's eligibility for admission based on their academic period.

The PME Cell of the First party in consultation with the representative of the Second party shall decide the location and sharing quantum of research work.

The number of student(s) at any particular time will be subjected to the availability of research facilities and scientists' time to guide thesis research at the First party institution.

Any student(s) admitted to the First party for training/postgraduate research, if found violating the rules and regulations laid down by the First party or indulge in such activities that amount to tarnishing the image of the Institute, or cause damage to the property, the registration of such student(s) would be summarily terminated. The Second party will not complete the formalities of issuing the certificates to such students until they compensate the losses to the First party.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) entered on the 1st day of December 2021.

By and Between

CADDCENTER Indian Educational Enterprises (P) Ltd., Bangalore having its office at Rukmini knowledge park, Kattigenahalli, Yelahanka, Bengaluru, Karnataka 560064 (here in after referred as "CADCENTER" for the sake of brevity) and represented by its **Chief Operating Officer, Mr. Sunilkumar A S** (which expression shall mean and include its successors in office and assigns).

and

Sapthagiri College of Engineering (here in after referred as "College" for the sake of brevity), an Engineering college recognized by AICTE and affiliated to visvesvaraya Technological University having its campus at #14/5, Hesarghatta Main Rd, Chikkasandra, Jalahalli West, Bengaluru, Karnataka - 560075, and represented by its **Principal** (which expression shall mean and include its successors in office and assigns)

Objectives of the Collaboration:

1. To provide employable skills to the students during their course at the college.
2. Make the student aware of the latest tools and techniques at an affordable fee in order to keep them industry ready at the end of their course.
3. Maximize placement opportunities for students from all courses.
4. To build the confidence level of the student to face the challenges of the real time.

This Memorandum of understanding is to collect a **Unique, Systematic and Employable Skills Development Program** for the students of the college towards achieving the objective of maximizing the employable opportunities for students of the college.

This Memorandum of Understanding states terms and conditions under which the Trainings shall be conducted by CADCENTER at the college premises and lists herein the respective responsibilities of both parties.

PREAMBLE:

For a student to be recruited by a good company, over and above the subject knowledge, he/she is expected to have the following:

1. Strong Fundamental Engineering Knowledge.
2. Engineering related Multiple Technical Skills – Develop skills that add value.
3. Project Management & Operational Excellence – Learn & Acquire the skills.
4. Communication & other skills.

While subject knowledge would be provided by the college, CADCENTER, will equip the students with required industry specific technical, project management and people skills.

On one hand, thousands of unemployed Engineering graduates are not finding suitable jobs, while on the other hand, industry requires millions of young minds at all levels but are unable to find the right candidates. This is because of the skill gap that exists between academic institutions and industry requirements. This skill gap is sought to be minimized for the students of the “college” by facilitating them to acquire the appropriate and relevant skills at the college itself.

Through this collaboration, CADCENTER will prepare the students of the “College” to be ready for industry by the time they enter the final semester and for this the students have to be nurtured and trained in different areas from the very beginning, keeping in mind the academic program and the progressive skill development cycle in mind, the programs are spread across the semesters.

CADCENTER shall provide

- The required trainers for the course and the training program would be instructor led.
- Comprehensive CADCENTER reference e-books to all students for each course as part of the course.
- Periodical assessment on the progress of students for their further improvements.

Bridging the gap between
Academics & Industrial Requirements

About CMTI

Construction Management Training Institute is a Bridging Institute for the development of Young Construction Professionals on practical construction.

Objective of CMTI

CMTI bridges the gap between the Academics & Industry Requirements of Construction Professionals through short term practical training by Construction Experts.

Who are We?

Our Construction Team is having average industrial experience of 30 years in Construction Industry on various domains like Residential, Commercial, Industrial & Infrastructure, and Interior Fit outs.

Our team of experts are working in various projects across Country, on the available time they are training the students Online and Offline.

Whats our Syllabus?

Construction is all about experience & Technology, Fresher's are struggling to get the jobs, our syllabus is accepted by the Industry and approved by STED Council. Our focus is on Construction Planning, Project lifecycle (Managing the Scope, Cost & Time on projects) and Software Application like BIM.

Whom we Train?

Young Aspirant having positive attitude looking for quick, decent job to support his family.

How we Train?

- ◆ Taking the students In-suite classes on projects sites handholding them on practical aspects of Construction.
- ◆ Presentation fro Industrial Experts, workshops & Seminars, Conferences Guiding students on live projects for the final year submission which enables to take up career easily.
- ◆ Meeting with experts, group discussions & brain-storming, sharing experiences and case studies.

Programme outcome is

Systematic transfer of knowledge from well experienced Subject Matter Experts to fresher, enhances the Knowledge & Skill sets.

The Fresher gets instant exposure on Industry / Job Requirements and Industry has accepted & absorbed 1,000+ Professionals from CMTI on past 3 years.

Strengths

- 100+ Experts for Coaching on Practical Construction
- 200+ Construction Companies for Placement & Training
- 300+ Live Projects for Training across India.
- 1000+ Placements
- 5000+ Students were trained
- Associated with 30+ Leading Engineering Colleges.
- Placement Assistance after training
- Technical Training Partner for NAREDCO, Karnataka.

Various Programmes

- 1) Certificate Course on Advanced Construction Management -3 Months
- 2) Key Functional Areas Training -1 Month
- 3) Workshops / Seminars - In Colleges & Construction Companies for Young Engineers
- 4) Practical Training at Project Sites
- 5) Internship Programmes
- 6) Guidance on final year projects towards career enabling

Objectives of the Collaboration:

1. To provide employable skills to the student during their course at the college.
2. Make the student aware of the latest tools and techniques at an affordable fee in order to keep them *industry ready* at the end of their course.
3. Maximize placement opportunities for students from all the courses.
4. To build the confidence level of the student to face the challenges of the real time

This Memorandum of Understanding is to conduct a **Unique, Systematic and Employable Skills Development Program, Workshops and Internship** for the students of the college towards achieving the objective of maximizing the employable opportunities for students of the College.

This Memorandum of Understanding states the terms and conditions under which the **Trainings** shall be conducted by NRET at the College premises and lists herein the respective responsibilities of both parties.

PREAMBLE:

For a student to be recruited by a good company, over and above the subject knowledge, he/she is expected to have the following:

2. Engineering related Multiple Technical Skills - Develop skills that add value.

3. Communication & other Soft Skills

While Subject Knowledge would be provided by the college, NRET will equip the students with required industry specific technical, project management and people skills

On one hand, thousands of unemployed Engineering graduates are not finding suitable jobs, while on the other hand, Industry requires millions of young minds at all levels but are unable to find the right candidates. This is because of the skill gap that exists between academic institutions and industry requirements. This skill gap is sought to be minimized for the students of the "College" by facilitating them to acquire the appropriate and relevant skills at the college itself.

Through this collaboration, NRET will prepare the students of the "College" to be ready for industry by the time they enter the final semester and for this, the students have to be nurtured and trained in different areas from the very beginning. Keeping in mind the academic program and the progressive skill development cycle in mind, the programs are spread across their semesters.

NRET Shall Provide

- ☐ The required trainers for the course and the training program would be Instructor led.
- ☐ Comprehensive NRET reference books to all students for each course as part of the course.
- ☐ Periodical assessment on the progress of students for their further Improvements.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) entered on 21 September 2022

By and Between

NANO ROBOTICS EMBED TECHNOLOGIES, Mathikere, Bangalore having its office at #27/1, Ground Floor, 14th main, Gokula 1st Stage, Mathikere, Bangalore - 560 0 (hereinafter referred as "NRET" for the sake of brevity) and represented by its **Technical Manager, Mr. Baba Fakruddin Ali B H** (which expression shall mean and include its successors in office and assigns)

And

Sapthagiri College of Engineering (hereinafter referred as "College" for the sake of brevity), is approved by All India Council for Technical Education (AICTE) Govt. Of India and an affiliated to Visvesvaraya Technological University having its campus at 14/5, Hesarghatta Rd, Chikkasandra, MEI Employees Housing Colony, Bengaluru, Karnataka 560057, Karnataka and represented by its **Principal** (which expression shall mean and include its

successors in office and assigns)

Objectives of the Collaboration:

1. To provide employable skills to the student during their course at the college.
2. Make the student aware of the latest tools and techniques at an affordable fee in order to keep them *industry ready* at the end of their course.
3. Maximize placement opportunities for students from all the courses.
4. To build the confidence level of the student to face the challenges of the real time.

This Memorandum of Understanding is to conduct a **Unique, Systematic and Employable Skills Development Program, Workshops and Internship** for the students of the college towards achieving the objective of maximizing the employable opportunities for students of the College.

This Memorandum of Understanding states the terms and conditions under which the **Trainings** shall be conducted by NRET at the College premises and lists herein the respective responsibilities of both parties.

PREAMBLE:

For a student to be recruited by a good company, over and above the subject knowledge, he/she is expected to have the following:

1. Strong Fundamental Engineering Knowledge
2. Engineering related Multiple Technical Skills - Develop skills that add value.
3. Communication & other Soft Skills

While Subject Knowledge would be provided by the college, NRET will equip the students with required industry specific technical, project management and people skills

On one hand, thousands of unemployed Engineering graduates are not finding suitable jobs, while on the other hand, Industry requires millions of young minds at all levels but are unable to find the right candidates. This is because of the skill gap that exists between academic institutions and industry requirements. This skill gap is sought to be minimized for the students of the "College" by facilitating them to acquire the appropriate and relevant skills at the college itself.

Principal

Sapthagiri College of Engineering
Chikkasandra, Hesarghatta Road
Bangalore- 560 067

Through this collaboration, NRET will prepare the students of the “College” to be ready for industry by the time they enter the final semester and for this, the students have to be nurtured and trained in different areas from the very beginning. Keeping in mind the academic program and the progressive skill development cycle in mind, the programs are spread across their semesters.

NRET Shall Provide

- ☐ The required trainers for the course and the training program would be Instructor led.
- ☐ Comprehensive NRET reference books to all students for each course as part of the course.
- ☐ Periodical assessment on the progress of students for their further Improvements.
- ☐ The ‘Certificate of Completion’ to every student who successfully completes the training program every semester. “Certificate of Association” from NRET to the college
- ☐ Provide Permission to use NRET logo as the Skill Development Partner
- ☐ Organize Campus and Off-Campus interviews for the final year students based on therequirements for NRET and its clients
- ☐ Welcome College to use **NRET**, strategically based on the need

Principal

Sapthagiri College of Engineering
Chikkasandra, Hebbur

The College Shall Provide

- ☐ The required number of computer systems in the lab and other required infrastructure for the practice and its maintenance.
- ☐ The Class rooms with LCD projector for the theory classes.
- ☐ The Schedule with the classes for this training during normal hours of the college.
- ☐ The supports to ensure, all students in a class, attend the training programs scheduled for them.
- ☐ Disciplinary support for the smooth conduct and timely completion of the entire course.

PARTICIPANTS:

The participants would be of B.E., Electronics and Communication Engineering, Electrical and Electronics Engineering, Information Science, Computer Science and Engineering, branch students.

COURSE CONTENTS

NRET in consultation with the College shall finalize the course contents for the skills development program.

Principal

Sapthagiri College of Engineering
Chikkasandra, Hesaraghatta Road
Bangalore- 560 057

TIME SCHEDULE

The program(s) will be conducted during the college working hours. The students will be divided into batches, depending on the total strength based on requirements.

LINK OFFICER

The Principal of the College shall appoint a Link Officer from each department for the duration of the program, who shall liaise with NRET and make the training process learner-friendly and effective. NRET shall work in close relationship with the Link Officer, who in-turn shall keep a close touch with the students. In the event of any difference of opinion between NRET and the Link Officer, the matter should be referred to the **Principal of the College**, whose decision thereon shall be final and binding on both the parties.

COURSE FEES & PAYMENT PATTERN

The course fee per student for each course offered is decided and mutually agreed upon by both the parties. The College shall collect the course fee from the students and pay to NRET.

PREAMBLE:

For a student to be recruited by a good company, over and above the subject knowledge, he/she is expected to have the following:

1. Strong Fundamental Engineering Knowledge
2. Engineering related Multiple Technical Skills - Develop skills that add value.
3. Communication & other Soft Skills

While Subject Knowledge would be provided by the college, NRET will equip the students with required industry specific technical, project management and people skills

On one hand, thousands of unemployed Engineering graduates are not finding suitable jobs, while on the other hand, Industry requires millions of young minds at all levels but are unable to find the right candidates. This is because of the skill gap that exists between academic institutions and industry requirements. This skill gap is sought to be minimized for the students of the "College" by facilitating them to acquire the appropriate and relevant skills at the college itself.

Principal
Sapthagiri College of Engineering
14/5, Chikkaasandra, Hesaraghatta Main Road
Bengaluru - 560 057

Through this collaboration, NRET will prepare the students of the "College" to be ready for industry by the time they enter the final semester and for this, the students have to be nurtured and trained in different areas from the very beginning. Keeping in mind the academic program and the progressive skill development cycle in mind, the programs are spread across their semesters.

NRET Shall Provide

- ☐ The required trainers for the course and the training program would be Instructor led.
- ☐ Comprehensive NRET reference books to all students for each course as part of the course.
- ☐ Periodical assessment on the progress of students for their further Improvements.
- ☐ The 'Certificate of Completion' to every student who successfully completes the training program every semester. "Certificate of Association" from NRET to the college
- ☐ Provide Permission to use NRET logo as the Skill Development Partner
- ☐ Organize Campus and Off-Campus interviews for the final year students based on therequirements for NRET and its clients
- ☐ Welcome College to use **NRET**, strategically based on the need

Principal
Sapthagiri College of Engineering
14/5, Chikkasandra, Hosaraghatta Main Rd
Bengaluru - 560 057

The College Shall Provide

- ☐ The required number of computer systems in the lab and other required infrastructure for the practice and its maintenance.
- ☐ The Class rooms with LCD projector for the theory classes.
- ☐ The Schedule with the classes for this training during normal hours of the college.
- ☐ The supports to ensure, all students in a class, attend the training programs scheduled for them.
- ☐ Disciplinary support for the smooth conduct and timely completion of the entire course.

PARTICIPANTS:

The participants would be of B.E., Electronics and Communication Engineering, Electrical and Electronics Engineering, Information Science, Computer Science and Engineering, branch students.

COURSE CONTENTS

NRET in consultation with the College shall finalize the course contents for the skill development program.

Principal
Sapthagiri College of Engineering
14/5, Chikkasandra, Hesarghatta Main Road
Bengaluru - 560 057

The program(s) will be conducted during the college working hours. The students will be divided into batches, depending on the total strength based on requirements.

LINK OFFICER

The Principal of the College shall appoint a Link Officer from each department for the duration of the program, who shall liaise with NRET and make the training process learner-friendly and effective. NRET shall work in close relationship with the Link Officer, who in-turn shall keep a close touch with the students. In the event of any difference of opinion between NRET and the Link Officer, the matter should be referred to the **Principal of the College**, whose decision thereon shall be final and binding on both the parties.

COURSE FEES & PAYMENT PATTERN

The course fee per student for each course offered is decided and mutually agreed upon by both the parties. The College shall collect the course fee from the students and pay to NRET.

- Department has a recognized research centre, with faculties in-house and from other institutions pursuing their doctorates and research work.

And whereas the Parties consider it expedient and in their mutual interest to collaborate with each other as strategic partners for undertaking collaborative R&D activities in Advanced Manufacturing, machine tools and related thrust areas of technology for the benefit of the student fraternity and Industry in particular and the Manufacturing Sector at large.

Through discussions and consultations between the Parties and subject to the terms and conditions set forth in this MoU, the Parties record their intentions and understanding as follows:

1. INTENT

CMTI and SCE have entered into this MOU to further their mutual intentions to jointly work on R&D in Design and Manufacturing Engineering and also in areas like Micromachining, Green Manufacturing, Industrial Ergonomics and other advanced Manufacturing Technology areas.

Both the parties agree that they shall harness their complimentary resources (the resource persons/faculty, the Graduate/PG/Doctoral student fraternity of SCE and the Scientists of CMTI would collaborate and leverage the facilities available at CMTI and SCE) and expertise to work together to pursue co-operative research activities for the benefit of the manufacturing and machine tool sector at large.

Both the parties, in line with the recitals, will agree upon detailed plan and conditions of co-operative activities.

2. OBJECTIVES AND SCOPE:

The primary objectives of this MoU are:

- a. SCE and CMTI to recognize each other as Centre of Excellence for Academic and Research collaborations and to share their facilities and resources for research and other mutual benefits.
- b. To undertake collaborative research in

- c. To design industry focused curriculum with a Vocational and Research orientation for select Engineering and Management streams of study and launch Certificate, Diploma, Degree and PG courses.
 - d. To seek CMTI's expertise to revitalize and upgrade the research potential of SCE.
 - e. To undertake joint research activities with National and International Funding support (for ex. GOI S&T agencies like DST, CSIR, SERC, etc.)
 - f. SCE to offer PhD and MS programmes for CMTI Scientists engaged in research and management activities.
 - g. CMTI may offer full semester industry relevant PG projects at CMTI to the eligible final year students of SCE, subject to their meeting CMTI's prescribed selection criteria and availability of projects & project guides.

This list may be extended and/or amended with mutual agreement in writing based on emerging needs.

3. RESPONSIBILITIES OF CMTI & SCE

- a. To identify specific contextual research themes/projects in consultation with stake holders including industry, as appropriate.
- b. Form Research teams consisting of CMTI scientists and SCE faculty, on a project-to-project basis.
- c. Identify and establish a cost model for sourcing necessary materials, facilities/equipment, consumables, etc. The facilities/resource persons can be sourced either from sponsor, CMTI or SCE, or others on a project-to-project basis.
- d. To formulate, design and offer co-branded, Industry focused programmes under Academy of Excellence for Advanced Manufacturing Technologies (AEAMT) under CMTI and SCE.

4. OUTCOMES / DELIVERABLES:

- a. Development of Job Ready man power for the Manufacturing Sector.
- b. Knowledge Up gradation and Research Capability Enhancement of the SCE Faculty.
- c. Opportunities for Qualification enhancement of CMTI Scientists.

5. CONFIDENTIALITY:

- a. Both SCE and CMTI acknowledge that certain Confidential information may be disclosed by one party to the other (the Party that owns and/or discloses the Confidential Information is hereinafter referred to as the "disclosing party" and the Party receiving or accessing such Confidential Information is referred to as "receiving party") during the tenure of this MoU or performance of the respective obligations under the resultant definitive agreements hereunder.

Confidential Information means all information identified as "Confidential", including but not limited to information concerning the trade secrets, intellectual property rights, know-how, formulae, processes, inventions, data, network configurations, system architecture, designs, flow charts, drawings, proprietary information, data or materials related to business, services, products, customers, employees, finances or operational information of either party, and any other confidential or proprietary information the disclosure of which might harm or destroy a competitive advantage of the disclosing party. The mode of communication of information:

- i. Written
- ii. Oral
- iii. Electronic or any other form
- iv. Both Technical & Non-Technical information

The receiving party shall not, directly or indirectly, disclose to any third party other than its employees, affiliated companies, and authorized agents any information concerning the disclosing party's business methods, products, customers or finances, or any other Confidential Information which is disclosed to it by the disclosing party, without the prior written permission of the disclosing party, unless such disclosure is specifically required in the course of the performance by the receiving party of its obligations hereunder or under the resultant definitive agreements. The obligations of receiving party under this Section shall not extend to any information which: (i) is or becomes a matter of public knowledge, not as a result of any action of the receiving party; (ii) is lawfully in the possession of the receiving

party prior to a disclosure hereunder; (iii) is received from a third party who lawfully acquired such information without restriction, and without a breach hereof, by the receiving party; (iv) is disclosed by the receiving party with the disclosing party's prior written approval (v) the information is independently developed by the receiving party, without use of the disclosing party's Confidential Information; (vi) is disclosed by the receiving party under operation of law or regulation or legal process;

- b. The Parties acknowledge that this MoU contains confidential information that shall be considered proprietary by both Parties, and agree to limit distribution of or disclosure about the Confidential Information hereunder and/or this MoU to those persons who have the access to confidential information within their respective organizations with a legitimate need to know the contents of this MoU. Neither party shall publicize or make any public announcement concerning the terms or nature of the relationship or this MoU without the prior written consent of the other party.
- c. SCE and CMTI both acknowledge that any breach by them of their respective obligations under this Section may cause irreparable harm to the other party for which its remedies at law may be inadequate and that in the event of any such breach either party shall be entitled to seek equitable relief (including without limitation injunctive relief and specific performance) in addition to other remedies provided hereunder or available at law.

Upon termination or dissolution of this MoU, or upon earlier demand thereof, each party shall at the other party's option, either destroy underwritten certification of such destruction or return to the other party all properties containing the other party's confidential information and copies thereof in its possession. The deletion of information from the following sources:

- i. Computers
- ii. Servers
- iii. Storage devices, to the extent of failure to destroy the data, corresponding obligations are preserved.

- d. The Confidentiality Obligations under this Section shall survive during the term of this MoU and 3 years thereafter.

6. INTELLECTUAL PROPERTY RIGHTS:

By entering into this MoU the Parties undertake:

1. To protect each other's intellectual property.
2. Not to use each other's intellectual property without the prior express written consent of the other.
3. Ensure the confidentiality of such intellectual property as provided in Section on Confidentiality and
4. Not to use each other's intellectual property should this MoU be dissolved or terminated at any time.
5. To render itself liable, in case of infringement, to all such damages, penalties, actions as available to the other party under the law.

The Parties agree that neither of them shall gain by virtue of this MoU any rights of ownership or any other interest, right or title of copyrights, patents, trade secrets, trade marks, or any other intellectual property rights owned by the other party, and nothing herein shall mean nor shall be construed to mean that they are at any time assigned, licensed or otherwise alienated to the other party, nor the other party shall be entitled to claim any right, title or interest therein, at any time. All new inventions, innovations or ideas developed in the course of providing services to a client shall belong to the party who develops them during the project/assignment. If the Parties undertake any joint development in the course of providing services to a client or under this MoU, any such joint development will be governed by a separate agreement to be negotiated in good faith by the Parties.

7. GOVERNING LAW & ARBITRATION.

In the event of any dispute or difference arising out of or in connection with this MoU shall be settled by the Parties by mutual negotiations. Any unsettled dispute or difference shall be referred to the arbitration of three arbitrators, of which one shall be appointed by CMTI and the other by SCE. The two arbitrators shall then appoint a third arbitrator before entering upon the reference. The Arbitration proceedings shall be regulated by the provisions of the Arbitration and Conciliation Act 1996 and the venue of the arbitration shall be Bangalore, India. The language of Arbitration shall be English. The arbitrators may from time to time with the written consent of Parties enlarge the time for making and

publishing the award, which will be binding on the both Parties. The governing law for the purpose of this agreement shall be India. All the courts in Bangalore shall have jurisdiction to try the disputes under this agreement.

8. TERM OF MoU:

This MoU shall be effective from the date of execution hereof and shall remain in force for a period of 3 years or until terminated by either party as above or replaced by a definitive Strategic Alliance Agreement between the Parties whichever occurs first. The Parties may mutually agree to extend the period of this MoU.

9. TERMINATION OF MOU:

- a. Either party shall, upon written notice of sixty (60) days to the other, withdraw from or terminate negotiations or terminate this MoU at any time without cause, and no such withdrawal or termination, for whatever reason will be deemed to be in bad faith, or otherwise give rise to any liability to either party (other than any liability arising from such Party's breach of Confidentiality Obligations, Intellectual Property and liability to make payments to each other for any payment then due and payable as specified in and any other breach of the respective binding definitive contract between the Parties relating to their mutual engagement in projects) Provided that the projects already accepted for implementation will be completed by each party performing the activities and discharging the obligations assigned to it pursuant to the relevant definitive agreement and the Parties agree that all such activities and transactions will be governed by the relevant definitive agreement, notwithstanding the termination of the MoU. On the termination/expiry of this MoU each party will return all property belonging to the other party and hereby undertakes not to use the said proprietary or Confidential information / trade secrets of the other party in any manner whatsoever without seeking the prior written consent of the other party.
- b. Either party shall also be entitled to terminate this MoU for cause in the event of:
 - I. Breach by the other Party of the terms and conditions of this MoU and its failure to remedy such breach within a period of 30 days from date of receipt of a written notice in this regard from the non-breaching party.
 - II. The filing by or against the other party in any court of competent jurisdiction of a petition in bankruptcy or insolvency, or for a scheme of rearrangement

(reorganization) with creditors, for the appointment of a receiver or trustees; or the making of an assignment for the benefit of creditors, and such petition is not discharged within 60 days of its filing.

10. AMENDMENT

This MoU may be amended or supplemented only by written document that makes specific reference to this MoU and which is signed by the party against which enforcement of any such amendment or supplement is sought.

11. WARRANTY

Each Party warrants to the other Party that to the best of its knowledge all materials, data, information and other assistance provided by it shall not infringe third party rights.

IN WITNESS WHEREOF, each party has caused it's duly authorized representative to execute this MOU as of the date stated above.

Party of the Second Part

AND WHEREAS,

Government Tool Room & Training Centre was established in 1972 at Bangalore with the participation of the Karnataka State Government, in collaboration with the Government of Denmark under the Bilateral Development Co-operation Agreement. GTTC is an autonomous society and recognized as Scientific and Research Organization by the Government of India. Govt. Tool Room and Training Centre (GTTC) is serving industries in the field of precision tooling, Defense & Aerospace sectors and providing well trained craftsmen in the area of Tooling & Precision Manufacturing. GTTC is periodically updating to new technologies in the existing set of advanced equipment viz. CAD / CAM, CNC machines for tooling and Precision Components, Laser for Industries, 3Dprinting, training on Robotics, Reverse Engineering etc... GTTC is focusing on the Integrated Development of the related segments of industries by way of providing good quality tools, trained personnel and manufacturing of precision components & sub-assemblies to Aerospace & Defense sectors. In future, the thrust would be more towards turnkey projects of the above and to support development of small and medium scale enterprises.
