Respected Sir,

Subject: Requisition for the financial assistance for the project

With respect to above subject, I request your kind self to provide finical assistance to carry out the project entitled "Solar powered LED Street light with auto intensity control". The research proposal and budget split-up has enclosed along with this letter. Kindly consider the requisition and do the need full.

Thanking you
Your's sincerely

RESEARCH PROPOSAL

A. GENERAL INFORMATION

1	About the project		
A	Title of the project	:	Solar powered LED Street light with auto intensity control
B	Subject area as per instruction	:	Renewable energy
2	Details of Principal Investigator		
A	Name	:	Mr.Nagaraj.H.P
B	Qualification	:	M.Tech in Electrical Power systems (Ph.D)
C	Designation	:	Associate Professor
D	Department	:	Electrical and Electronics Engineering
E	Years of teaching/research experience	:	17
F	Email ID	:	nagarajhp@sapthagiri.edu.in
G	Cell Number	:	9731689412
H	Details of the Head of the Department		
I	Name of the Head of the Department	:	Dr. K.N.Ravi
J	Email ID	:	hodeee@sapthagiri.edu.in
K	Cell Number	:	9449940873

Principal
Sapthagiri College of Engineering
Chikkasandra, Hesaraiahatta Road,
Bangalore-560 057

Signature of the Investigator

B. DETAILS OF THE PROJECT PROPOSAL

1.	Title of the Project Proposal	:	Solar powered LED Street light with auto intensity control
3.	Objectives of the proposal (Not more than six points)	:	<ol style="list-style-type: none"> 1. To provide a better solution to minimize the electrical wastage in operating street lights. 2. To provide different intensities at different times of night for saving energy.
4.	Background of the project	:	According to previous work, high intensity discharge lamps used cannot control intensity and hence are replaced with LED's.
5.	Methodology (Please include flowsheet, if required)	:	To design a solar street light with battery management and lighting control using open source hardware Arduino.
6.	Milestones with time schedule & work plan	:	<p>Data collection for solar panel 3 months(Feb 2018-April2018)</p> <p>Design of panel (May 2018-July 2018)</p>
8.	List of equipment required for Phase-I & Phase-II for Project Implementation (as per the instruction Sl.No.27 under Annexure-II)		Up gradation of MI-POWER software Rs.18,500 apprx

 Principal
 Sapthagiri College of Engineering
 Chikkasandra, Hesaraghatta Road
 Bangalore-560 057

9.	Relevance, importance & application of the project	:	The project has scope to provide lighting in industries, campuses and parking lots of huge shopping malls. It can also be used for surveillance.
10.	Novelty/Uniqueness of the project proposal	:	It is cost effective, practical, eco friendly and the safest

Through: HOD, EEE

Subject: Proposal to install 'SOLAR POWERED LED STREET LIGHT' in SCE campus.

Respected Sir,

We the following four students of 8th semester EEE department would like to submit a proposal of our project 'SOLAR POWERED LED STREET LIGHT WITH AUTO INTENSITY CONTROL' which will be installed in our college campus.

SL. No	NAME	USN	Signature
01	Pavithra.N.M	1SG14EE057	Pavithra.N.M
02	Sneha.S	1SG14EE072	Sneha.S
03	Sumathi.G	1SG14EE076	Sumathi.G
04	Sushma.K.P	1SG15EE443	Sushma.K.P

In this project, providing solar powered street lighting is one of the most important and expensive responsibilities. It will avoid manual controls which are prone to error and energy wastage. The System uses solar panels for charging batteries by converting the sunlight into electricity. A programmable Microcontroller Atmega328P of Arduino is engaged to provide different functions for saving the energy. Thus, the street lights switch ON and switch OFF at the automatically. The process repeats every day.

For this the estimated budget of the components is as follows:

SL.NO	COMPONENTS	DISCRIPTION OF THE COMPONENTS	COST
01	Solar panel	Converting the sunlight into electricity	6500
02	Battery & Battery cabinet	Lead acid battery which Stores the electricity 85AH	8500
03	LED	36 Watt LED For illumination	1000
04	Arduino UNO	Arduino will control the intensity of light at different time slots.	500
05	Miscellaneous components (Control circuit)	Resistors, capacitors, MOSFET, zener diode, etc	2000
TOTAL			18500

18,500/-

SAPTHAGIRI COLLEGE OF ENGINEERING

(Affiliated to VTU, Belagavi, Approved by AICTE, New Delhi)

#14/5, Chikkasandra, Hesaraghatta Main Road,
Bengaluru-560 057

Department of Electrical and Electronics Engineering

An amount of Rs. 18,500/- was sanctioned for the project "Solar Powered LED Street Light with Auto Intensity Control". The expenditure of the amount sanctioned is given below.

Sl.No.	Components	Description of the Components	Cost
1	Battery	100AH Battery, OPTI 12 V, 100AH	11,661/-
2	Battery box	Battery box	1,500/-
3	Clamps and Cables	Clamps for fixing battery and Connecting Cables	400/-
4	Taxes	Taxes	2,441/-
5	Miscellaneous	Fixing of panel, mounting Batteries etc.	2,500/-
Total			18,502/-

An amount of 18,502/- has been spent. The same has to be reconciled.
Please Oblige.

With the implementation of this project Solar street lights are independent of the utility grid. Hence, the operation costs are minimized so solar street lights require much less maintenance compared to conventional street lights which use electricity. Since external wires are eliminated in solar street lights risk of accidents is minimized. And this is a non-polluting source of electricity.

This will be a model project for the lighting Renewable Energy Sources which will add value to the project. This is a requirement in NAAC assessment.

Hence we here by submit this proposal which will be useful for us and for the college. We look forward for your positive response.

Thanking you

Your's faithfully
