Work Shop-2018-2019

As per the principal direction and permission the Department organized 'Hands on training on animal handling techniques' by Dr Sushil Kumar Middha, Associate professor, Maharani Nilaxmi Amani College for Women on 30th April 2019 and 1st May at 9:30 AM in Biotechnology lab in the presence of our Principal Dr. K L Shivabasappa, Administrative officer Dr. Nagabhushana KR, Head of the Biotechnology Department Dr. Vena S More, Forum co-coordinator Prof. Prashanth Kumar HP, faculty members and students of Biotechnology.

The session started with introduction of the guest by Prof. Prashanth Kumar HP. The guest delivered a talk for an hour about the importance of use of animals in the research, how to handle them with care, the preparations and requirements to be considered for animals maintenance. Later on session started with hands on training of animals to the students by Mr. Avijith and Mr. Abhishek E. The students in a group learn how to hold the mice, recognition of sex, difference between mice and rat, how to draw the blood from animals. The workshop gave the platform for the students to handle the animals so that they can implement when they are doing their projects.

DEPARTMENT OF CIVIL ENGINEERING

REPORT

One Day workshop

On

Principles of Concrete Mix Design on High Strength Concrete

And Self Compacting Concrete

A one day workshop was conducted jointly by Sapthagiri College of Engineering and ICI on 26th April, 2019. The workshop started at 10.00 am, the function was presided by Sri. G. Dayanand and Chairman and Managing director, Sri. G D Manoj executive director, Head of Department, Civil Engineering Dr. R.L Ramesh and Chief Guest Er. Nagesh Puttaswamy Regional Head Technical Services Ultra Tech cements. The inaugural was initiated with a welcome speech by Prof. Sanjana G M, Civil Engineering Department, was followed by prayer and lighting of the lamp. Prof. Sanjana G M gave her presidential address which was followed by introduction to chief guest by Prof. Akshay J also he gave a brief idea about the workshop. 71 students of 3rd year and 63 students from final year Civil Engineering along with faculty members from various colleges attended the workshop.

The forenoon session included a discussion on introduction to Principles of Concrete Mix Design on High Strength Concrete handled by Er. Nagesh Puttaswamy. The main topics of discussion were ingredients and properties of concrete and importance of these properties in high strength concrete. The principles of mix design were discussed in detail and mix design procedure explained as per IS: 10262-2019. Er. Nagesh Puttaswamy gave a cash prize for the student who secured highest marks in concrete technology subject for the purpose of encouraging the students to learn and apply the technology effectively in concrete industry.

The afternoon session started at 2.00 pm after the lunch break. The workshop started with introduction of chief guest Dr. Shrishail B. Anadinni Professor Presidency University by Prof. Raghavendra R and Dr. Shrishail B. Anadinni gave a talk on self Compacting Concrete. self Compacting Concrete are the material that flows, placed into formwork and compacted under the influence of self weight only without vibration. It can be used in the situation where vibration is difficult and reinforcement steel is highly congested in RCC. It adequately fills voids without

segregation and bleeding, without vibration. Well graded or rounded coarse aggregates are desirable as they minimize cement paste content as well as admixture dosage. The maximum size of aggregate is generally limited to 12 mm for mass concreting.

After the workshop session, certificates were given to all the students and faculties of various colleges. The one day workshop session which followed was very informative and it was a good experience for all the students and faculties of various colleges.

Welcome speech by Prof.Sanjana G M

Professor and Head
Department of ECE
Sapthagiri College of Engineering.

Dear Sir,

Sub:Seminar on Research Methodology (RM).

The Sapthagiri College of Engineering is arranging seminar on Research Methodology (RM). We request you to kindly arrange for the lecture. The subject will be of interest to the Engineering college faculties. As per your request, Transport will be arranged for Pick-up and drop of the guest lecturer. The details of the event is provided below.

Date:01.04.2019

Time: 10.30AM to 12PM

Venue: Seminar Hall, Faraday Block

Thanking you,

Dr. KN Ravi

Report on the Technical talk

Topic: "Objectives and Motivation for Research"

By

Dr. H C Sateesh Kumar

Professor

Department of Electronics and Communication Engineering
Sapthagiri College of Engineering
Bengaluru.

Date: 01.04.2019

Time: 10.30 AM to 12 PM

Venue: Seminar Hall, Faraday Block, SCE Bengaluru.

The talk started by welcoming gathering by Prof. Vani A, Department of ECE. The speaker Dr. H C Sateesh Kumar, Professor, Dept of ECE started the session highlighting the topics on Identifying a problem, Tackling and addressing the problem when doing research, Reporting the research during process such as Report, thesis writing and publishing also Peer Review Process and Proposal Writing.

At the end of this workshop, the participants were able to understand some basic concepts of research and its methodologies, identify appropriate research topics, select and define appropriate research problem and parameters, prepare a project proposal, organize and conduct research in a more appropriate manner. It was helpful write a research report, article/paper, thesis and research proposal (grants).

Dr. H C Sateesh kumar

Dr. H C Sateesh Kumar, received his B E degree in Electronics Engineering from Bangalore University. His specialization in Master degree is Bio-Medical Instrumentation from Mysore University. He received his Ph D in Computer Science and Engineering from Bangalore University. He has 24 years of Teaching, research and administrative experience. He has over 40 research publications in refereed International/National Journals and Conference Proceedings. His area of interest is in the field of Signal Processing and Communication Engineering. He has guided more than 50 UG and more than 15 PG Projects, currently Guiding 3 research Scholars in the area of Image Processing. He is the Member of Board of Examiners of various Institutions. He has chaired sessions in many National and International Conferences. He is the life member of Institution of Engineers (India), Institution of Electronics and Telecommunication Engineers and Indian society for Technical Education. and 1 Lecturer of which 4 are doctorates, 9 are currently pursuing Doctoral degree.

Seminar Report

Topic: "Entrepreneurship without Borders"

By

Mr. Chinmaya Mishra

Lead Data Scientist

UTC, Bengaluru

Date: 20.03.2019

Time: 10.30 am to 12.30 pm

Venue: Seminar Hall, SCE Bangalore.

The session started with welcoming the gathering and introduction of the Speaker Mr. Chinmaya Mishra, UTC Bengaluru by Prof. Vani A, Assistant Professor, Dept of ECE, SCE.

Dr. HC Sateesh Kumar welcome the speaker with bouquet of flower. The speaker started the session with introduction to the Entrepreneurship, opportunities and problems for entrepreneurs globally, including India and other Asian countries. Linkages between the business environment, the institutional framework, and new venture creation are covered with a special focus on blockchain technology. In addition to discussing a range of global entrepreneurial situations, student groups pick one particular cluster on which to focus and to understand what further development would entail. The interactions were based primarily on case studies.

Guest Lecture Report

Topic: "Machine Learning using Python"

By

Mr. Chinmaya Mishra

Lead Data Scientist

UTC, Bengaluru

and

Mr. Patil

TCSion, Bengaluru

Date: 20.03.2019

Time: 10.30 am to 12.30 pm

Venue: Seminar Hall, SCE Bargalore.

The session began with a discussion on Introduction to the Machine learning and Python programming. Machine learning is the science of getting computers to act without being explicitly programmed. In the past decade, machine learning has given us self-driving cars, practical speech recognition, effective web search, and a vastly improved understanding of the human genome. Machine learning is so pervasive today that you probably use it dozens of times a day without knowing it.

The session continued with fundamentals of Machine Learning with types of Machine learning, Python programming language basics and Data Processing. They also illustrated some of the applications of machine learning.

Further speaker suggested the implementation ideas for their project. The session concluded with student's interaction with the questionnaire. Student found the session to be very useful and given idea about practical applications of Computer network.

Date: 20.03.2019

Time: 2.00 PM to 4.30 PM

Venue: Seminar Hall, SCE Bangalore.

The session was started by the introduction of the speaker. Speaker Mr. Ram Prasad L.V. started the session by the interest of the students in the field of design, thermal, quality, management and entrepreneurship. The gap between classroom teaching and Industry requirements from the students were explained and throw the light on the skill developments on the important topics. Introduction to Thermal engineering in industry was highlighted with some practical examples. Then the design of Refrigeration and Air conditioning for most of

Workshop On :
Refrigeration & Air
Conditioning
Trainer Profile :

Ramprasad L V
Refrigeration & Air conditioning expert
with 20+years of work experience in
product design & Technology
innovation functions.

Trainer Feedback :
Students domain knowledge is not
aligned with the industry requirement
and basics are not well set.

Scope for Improvement
Basics for the project development on
any technology should be strengthened
by providing more hands-on to all the
students.

The more information about innovative
technologies should be given to the
students with variety of case studies.

Fax:

Dear Sir,

Sub: Workshop at Sapthagiri College of Engineering

This is with reference to your letter No: **PSTI/HOI/Col_sem/2011-12**, Dated: 03/03/2018, requesting us to select the topic for the workshop. We request you to kindly arrange for the workshop on "**Data Visualization Tool**". This subject will be of interest to the students of Computer Science & engineering. As per your request, Transport will be arranged for Pick-up and drop of the workshop. The date & time for the above seminar is 20/03/2018 at 10.00 AM.

Thanking you

Principal

Report on

Workshop on Tableau – Data Visualization Tool

Data visualization is the graphical representation of information and data. By using visual elements like charts, graphs, and maps, data visualization tools provide an accessible way to see and understand trends, outliers, and patterns in data.

In the world of Big Data, data visualization tools and technologies are essential to analyze massive amounts of information and make data-driven decisions.

Data visualization is another form of visual art that grabs our interest and keeps our eyes on the message. When we see a chart, we quickly see trends and outliers. If we can see something, we

internalize it quickly. It's storytelling with a purpose. If you've ever stared at a massive spreadsheet of data and couldn't see a trend, you know how much more effective a visualization

can be.

Workshop was conducted from 20th March 2019 by Navigem – for all the 8th semester students took part in it and are immensely benefited.

Guest Lecture Report

Topic: "Recent trends on Networking"

By

Mrs. Sunita Amingad
Technical Manager
Jetking
Bangalore

Date: 16.03.2019

Time: 10.30 am to 12.30 pm

Venue: Microprocessor Lab, SCE Bangalore.

The session began with a discussion on Introduction to the network. Speaker briefed about the topics such as Scope of Network, Working of OSI Model, Firewall, types of routing and security in networking. Hands-on was conducted using packet tracer software on various topics such as wired and wireless communication with security.

The session continued with the introduction to Computer Communication Networking and protocols basics. Speaker explained the different types of networks available and their applications. They also discussed about the usage of open source networking tools. They demonstrated the application and made the session more interactive.

Further speaker suggested the implementation ideas for their project. The session concluded with student's interaction with the questionnaire. Student found the session to be very useful as the lecture covered the topics beyond their syllabus in both lab as well as theory and given idea about practical applications of Computer networks.

REPORT OF THREE DAYS HANDS-ON WORKSHOP ON "BIG DATA ANALYTICS"

We the Department of Computer Science and Engineering organized Three Days Hands-On Workshop on "Big Data Analytics" students got knowledge about Big Data Technology. Students gained the knowledge about Hands-On Part and also how the company will utilize the Hadoop Tools like Hive, HDFS, MapReduce, Yarn, Pig, Sqoop and Flume etc. Hadoop helps to leverage the opportunities provided by Big Data and overcome its challenges an open source, Java-based programming framework that supports the processing of large data sets in a distributed computing environment Based on Google File System (GFS). Students are working with real time use cases like Hospital Data Analysis, E-Commerce Data Analysis and Camera Data Analysis. Students get idea that how big data used in different fields like E-commerce, Telecommunication, Financial service and Entertainment. Apache Hive is a data warehouse. Hive is built on top of Apache Hadoop for providing data analysis, data summarization and query.

HDFS is a distributed file system that provides storage and access to data across Hadoop clusters. Like other Hadoop-related technologies, HDFS is a key tool for managing pools of Big Data and supporting Big Data analytics applications. Map Reduce is a programming model and an associated implementation for processing and generating big data sets with a parallel, distributed algorithm on a cluster. YARN is a Yet another Resource Negotiator and it allows different data processing methods like graph processing, interactive processing, stream processing as well as batch processing to run and process data stored in HDFS. Apache Pig is a high-level platform for creating program that run on apache Hadoop. The language for this platform is called Pig Latin. Sqoop is a tool designed to transfer data between Hadoop and relational database servers. Flume is a distributed, reliable and available service for efficiently collecting, aggregating and moving large amount of log data. It would like to tailor their courses to turn out graduates whose skill-set are aligned to Industry requirements. Often new research topics arise out of interaction between both Academia and Industry. Workshop was conducted from 6th March 2019 to 8th March 2019 by EduNextgen – for all the 8th semester students took part in it and are immensely benefited.

Workshop Report

Topic: "Microsoft Certification on IoT"

By

Microsoft Technologies
Bangalore

Dates: 06.02.2019 to 09.02.2019

Time: 8.30 AM to 4.30 PM

Venue: ALH 113 and CSE PG Lab, SCE Bangalore.

Speaker: Mr. Sumit Sharma

The workshop started with introduction to IoT (Internet of Things) and Python programming language with Raspberry Pi Microcontroller. Later simple programs were executed using Python programming.

Functions, syntax and programming of Python were taught using Python codes and hardware interfacing programs like LED, Relays were executed.

Later sensors and actuators like proximity sensor, LDR, RF detector, Stepper motor and DC motors interfacing using Raspberry Pi. Also Adafruit and IFTT application were introduced to control the lights using Google Assistant.

The certification was a platform to venture into the areas of IoT, Embedded, Python scripting, Raspberry Pi and many others. It is amongst some of the rapidly growing technologies today, with its applications in various aspects of embedded systems. It forms core research area within engineering and computer science disciplines too.

Report on

"Student Development Program On Object Oriented Concepts"

(4th Feb 2019 – 8th Feb 2019)

Our Department has conducted Student Development Program on Object Oriented Concepts from 4th Feb 2019 – 8th Feb 2019 for 4th semester students. Students participated in all the sessions of the program enthusiastically. The faculties of our CSE Department took the responsibility to be the Resource person for this Program, where they delivered OOC concepts like Introduction to C++, Variables, Inline functions, Difference of C, C++ & JAVA, Inheritance, Polymorphism, Datahiding, and Encapsulation etc.

I would like to thank Management and Principal, SCE, Bangalore for their valuable financial support to conduct Student Development Program. I would also like to thank our HOD, Staff members for supporting & for the successful conduction of this Program.

Three days "Faculty Development Program"
On
"ADVANCED SURVEYING TECHNOLOGIES
USING TOTAL STATION"

FDP - 2019
January 31st to February 02nd 2019
Organized by
Department of Civil Engineering
In Association with

BENGALURU CENTER

DAY-1 Session-1 9:00AM to 10:30 AM

Introduction to Surveying & Methodologies- 2 hrs

Lecture by S Hemanth Reddy.

Topics Covered: Importance of accurate survey data to a civil Engineering project & Impacts of wrong surveys with live project experience examples.

Brief on latest Technologies and Instruments used as on Today (Total Station, 5 DGPS, Li DAR, Drone UAV)

Introduction to Total station and seven basic steps in learning the Total Station 5 operation

10.30 to 10.45AM: Break

Session 2: 10.45 to 12.45

Practical Session - Demonstration and practice of

seven steps of Total Station

1. Centering 2. Major Levelling 3. Minor Levelling 4. Creation of Job 5. Station Setup 6. Back Orientation 7. Establishing Foresight point

12.45 to 1.45PM: Lunch Break

Session 3: 1.45 to 3.45PM

Individual Practice of seven steps by all in Batches continues.

DAY-2 Session-1 9:00 to 10:30 AM

Three point Traversing demo and Practice by all batches.

10.30 to 10.45AM: Break

Session 1: 10.45 to 12.45

Topographical Survey demo and practice by all in batches.

12.45 to 1.45PM: Lunch Break

Session 2: 1.45 to 3.45PM

Demo and practice of following application tools Setting Out/Marking, Remote Elevation measurement, Area Calculation

DAY-3 Session-1 9:00 to 10:30 AM

Carrying out sample topographical Survey of a road project.

10.30 to 10.45AM: Break

Session 1: 10.45 to 12.45

Sample project continued.

12.45 to 1.45PM: Lunch Break

Session 2: 1.45 to 3.45PM

Downloading and processing the field data, Theory evaluation test

DEPARTMENT OF CIVIL ENGINEERING

REPORT ON 3 DAYS FDP ON "ADVANCED SURVEYING TECHNOLOGIES USING TOTAL STATION"

A 3 days Faculty Development Program on "Advanced Surveying Technologies using Total Station" was conducted at Sir.M.V.Seminar Hall by department of civil engineering from 31st January to 02nd February 2019 in association with ICI and Sapthagiri College of Engineering Bangalore. The Resource Person for the Program was Hemanth Reddy. The program was attended by all the HOD's of Sapthagiri College of Engineering and the program also included participants(faculties) from different engineering colleges in and around Bangalore.

Master of Ceremony(MOC) for the entire program was Mrs. Navya N (Assistant Professor, Department of Civil Engineering). After self introduction of MOC, Mr.Rajiv (Associate Professor, Department of Civil Engineering) delivered the welcome address followed by the Pleasant Prayer song by our 4th sem student Ms.Nikhila. Further Dr.R.L.Ramesh (Head Of the Department, Department of Civil Engineering) explained us about the importance of FDP program and its necessity for the faculties. Further, the gathered lighted the lamp and seeked the blessing of Dr.Sir.M.Visweswaraya. Following this, Dr.K.L.Shivabasappa(Principal, Sapthagiri College of Engineering) explained us the necessity of having the practical knowledge in Civil Field. He also enlightened the necessity of surveying with his own personal experiences. Further Mr.Akshay J (Assistant Professor, Department of Civil Engineering) briefly introduced the resource person of the program Hemanth Reddy. Later Mr.Hemanth Reddy also enlightened us about the need of Total Station and how is he helping the needy unemployed by creating the job opportunity by training about the Total Station. He also said that he is helping the Civil students of the final sem of different engineering colleges by providing them training as per the industry expectation and helping them to get placed easily. Followed by his motivational explanation about the employment and the quick work done using Total Station, the program came almost to an end and the vote of thanks for the morning indoor session was given by Mrs.Pallavi G.A(Assistant Professor, Department of Civil Engineering). After the vote of thanks, the MOC Mrs.Navya N thanked the gathering and asked the participants to stay there for further theoretical and practical sessions for the next 2 days. This was followed by the Tea Break for everyone who had gathered.

31/01/2019(Day1)-

After the Tea Break, the participants in and out of Sapthagiri College of Engineering and our Beloved HOD, Dr.R.L.Ramesh assembled at Sir.M.V.Seminar Hall for the theoretical Session.

Hemanth Reddy(Resource Person) started explaining about the need of Total station and highlighted the seven basic steps in total station. This included the introduction to surveying and methodologies, Importance of accurate survey data to a civil engineering projects & Impacts of wrong surveys with live project experience examples, Brief on latest technologies and Instruments used as on today (Total Station, 5 DGPS, Li DAR, Drone UAV), Introduction to total station and seven basic steps in learning the total station operation. Further he circulated the 3 point Traverse sheet to all the participants assembled, which would be much helpful to note down the further readings in the field. After a lecture of about 45minutes, all the participants were asked to gather in the field (Sapthagiri College of Engineering Campus) for the practical demonstration.

Groups were made to ensure each and every participant will get the chance to operate the total station instrument (Two total station instruments was available in Sapthagiri college of engineering and one total station instrument bought from the resource person was utilised for all the three days FDP). Prior to the lunch break, Mr.Hemanth Reddy practically demonstrated the basic seven steps of total station.

Post Lunch Break, the participants started practising individually the seven basic steps of total station for being perfect at their end. This lasted till the evening and the session ended for the day1.

Department of Civil Engineering) briefly introduced the resource person of the program Hemanth Reddy. Later Mr.Hemanth Reddy also enlightened us about the need of Total Station and how is he helping the needy unemployees by creating the job opportunity by training about the Total Station. He also said that he is helping the Civil students of the final sem of different engineering colleges by providing them training as per the industry expectation and helping them to get placed easily. Followed by his motivational explanation about the employment and the quick work done using Total Station, the program came a most to an end and the vote of thanks for the morning indoor session was given by Mrs.Pallavi G.A(Assistant Professor, Department of Civil Engineering). After the vote of thanks, the MOC Mrs.Navya N thanked the gathering and asked the participants to stay there for further theoretical and practical sessions for the next 2 days. This was followed by the Tea Break for everyone who had gathered.

31/01/2019(Day1)-

After the Tea Break, the participants in and out of Sapthagiri College of Engineering and our Beloved HOD, Dr.R.L.Ramesh assembeled at Sir.M.V.Seminar Hall for the theoretical Session.

Hemanth Reddy(Resource Person) started explaining about the need of Total station and high lighted the seven basic steps in total station. This included the introduction to surveying and methodologies. Importance of accurate survey data to a civil engineering projects & Impacts of wrong surveys with live project experience examples, Brief on latest technologies and Instruments used as on today (Total Station, 5 DGPS, Li DAR, Drone UAV), Introduction to total station and seven basic steps in learning the total station operation. Further he circulated the 3 point Traverse sheet to all the participants assembled, which would be much helpful to note down the further readings in the field. After a lecture of about 45minutes, all the participants were asked to gather in the field (Sapthagiri College of Engineering Campus) for the practical demonstration.

Groups were made to ensure each and every participant will get the chance to operate the total station instrument.(Two total station instruments was available in Sapthagiri college of engineering and one total station instrument bought from the resource person was utilised for all the three days FEP). Prior to the lunch break, Mr.Hemanth Reddy practically demonstrated the basic seven steps of total station.

Post Lunch Break, the participants started practising individually the seven basic steps of total station for being perfect at their end. This lasted till the evening and the session ended for the day1.

01/02/2019(Day2)-

In the beginning session for day2, the participants were again practising the seven steps of total station in order to ensure the perfectness. Further Mr.Hemanth Reddy practically demonstrated the 3 point traversing procedure. He also explained us how to enter the readings obtained from 3 point traverse procedure in the sheet provided on day1. Followed by his practical demonstration, the participants repeated the closed traversing procedure by repeated practice till the lunch break. Post lunch break, participants were given the demo and practice of

01/02/2019(Day2)-

In the beginning session for day2, the participants were again practising the seven steps of total station in order to ensure the perfectness. Further Mr.Hemanth Reddy practically demonstrated the 3 point traversing procedure. He also explained us how to enter the readings obtained from 3 point traverse procedure in the sheet provided on day1. Followed by his practical demonstration, the participants repeated the closed traversing procedure by repeated practice till the lunch break. Post lunch break, participants were given the demo and practice of Topographical Survey, area calculation, marking layouts etc.Till the end of the session for day2, the participants completely practised what was taught on day2.

02/02/2019(Day3)-

In the morning session of day3, participants practised what was taught on day2. Post lunch break after few more practise, all the participants were asked to again gather at Sir.M.V.Seminar Hall. Our beloved HOD, Dr.R.L.Ramesh thanked the resource person Hemanth Reddy for sharing his knowledge with us. Feedback was taken from all the participants about the pros and cons of the FDP. Participants were given the chance to ask questions/doubts which they had about total station and the doubts were all answered. Further, certificates were given to all the participants and a token of memory was given to Resource Person Hemanth Reddy. Due to the refreshments and accommodation arrangements made by our HOD and due to the impartial delivery of the practical knowledge by Hemanth Reddy the FDP received lot of positive feedback and it paved the way for participants to implement their ideas in projects in Total Station.

REPORT

**FACULTY DEVELOPMENT PROGRAM
MACHINE LEARNING AND TOOLS**

30th & 31st January 2019

About Machine Learning:

Machine learning is an application of artificial intelligence (AI) that provides systems the ability to automatically learn and improve from experience without being explicitly programmed. Machine learning focuses on the development of computer programs that can access data and use it learn for themselves.

The process of learning begins with observations or data, such as examples, direct experience, or instruction, in order to look for patterns in data and make better decisions in the future based on the examples that we provide. The primary aim is to allow the computers learn automatically without human intervention or assistance and adjust actions accordingly.

Resource Persons:

Dr.Suguna, Professor Department of computer science and engineering at Veltech University, Chennai having 25 years of working experience and having good knowledge in Machine Learning algorithms with image mining and gave hands on training in Machine Learning Programs in Python programming Language.

Dr.Shyamala Devi, Professor Department of computer science and engineering at Veltech University, Chennai having 14 years of working experience and having good knowledge in Machine Learning algorithms and gave hands on training in Machine Learning Programs in Python programming Language.

Respected Sir,

Subject: Regarding Workshop on "Machine Learning Laboratory"

We the Department of Computer Science and Engineering, have planned to conduct one day workshop on "Machine Learning Laboratory" on 19th November, 2018 to aid our students in gaining more insight into Machine Learning & Python concepts. The invited speakers had conducted one week Machine Learning workshop and students requested more information on python coding for Machine Learning which will help them out in their 8th semester projects.

So kindly we request you to approve for the above mentioned subject.

Thanking you Sir,

Coordinator

REPORT ON WORKSHOP

"Machine Learning Laboratory"

Workshop on "Machine Learning Laboratory" by Prof. Gireesh Babu C N and Prof. Vinutha K working as Assistant Professor, Department of ISE at BMSIT College for 7th semester students on 19-11-2018, totally 49 students were participated. The speaker provided information on Machine learning concepts, Algorithms & Machine Learning Laboratory programs using Python code was provided and the session was interactive.

Highlights of the discussion were:

- Machine learning concepts
- Machine learning Algorithms
- Machine Learning Laboratory programs

Overall the students felt that the session was informative & gain knowledge about Machine learning concepts.

REPORT ON WORKSHOP

"ARDUINO"

Workshop on "ARDUINO" by Mr. Srinivas shetty working as Technical lead at SST Technologies for 3rd semester students on 17/11/2018& 18/11/2018. The speaker provided information on Arduino , an open source electronics platform based on easy to use hardware & software and hands-on session of using Arduino boards in order to read inputs –light on a sensor ,activating a motor , turning on a led etc was provided and the session was interactive.

Highlights of the discussion were:

- Arduino board usage
- Seven Segment Displays
- Multiplexer, Map Entered Variable(MEV)

Overall the students felt that the session was informative & gain knowledge about recent technologies.

One day Hands-on Workshop Report

Topic: "IoTs and its applications"

By

Mr. Chethan CR

Director
Tekatron IT Solutions
Bangalore

Date: 03.11.2018

Time: 8.30 AM to 4.30 PM

Venue: HDL Lab, SCE Bangalore.

First session was started at 09:00AM by an Introduction to microcontrollers such as 8051, ARM, PIC and Arduino by expert Mr. Chethan, Director and his colleagues, Design Engineers from Tekatron IT Solutions. By this session students had in depth knowledge of ARDUINO and hence were able to technically know how of working with ARDUINO and its application in various domain of present technological era.

After lunch second session at 1.30 PM comprising of various laboratory hands on using ARDUINO was conducted. The introduction to the various sensors and actuators and their application was described. The details of the Arduino board were discussed. The students were introduced to soldering the circuit on boards. The laboratory sessions included working

Report on

MySQL, ODBC, JDBC - Database Connectivity

Department of CSE had arranged MySQL, ODBC, JDBC - Database Connectivity for 5th semester students on 17/10/18 conducted by Mr. Pramod from NAVIGEM. Workshop helped the students to understand about the Web Application development and Database CRUD operations. Team Navigem also shared the sample demo project of the same for the students.

Respected Sir,

Subject: Hands-on workshop on "IoT" for 5th Sem Students.

We the Department of Computer Science and Engineering, planned to conduct - Two Days Hands-on workshop on "Internet of Things by GeeksLab in association with AIESEC, IIT-Delhi". For 5th Semester students on 12th October 2018.

So kindly we request you to approve for the above mentioned subject.

Thanking you Sir,

Coordinators:

REPORT ON WORKSHOP

"IOT"

Workshop on "IOT" by Mr. Karan Kapoor working as Corporate Trainer in GeeksLabs Technology Pvt. Ltd for 5th semester students on 12-10-2018 & 13-10-2018, totally 43 students were participated. The speaker provided information on Arduino basics, Sensors: Light intensity sensors, IR sensors, Alarm Sensor, Temperature Sensor and Putting the data of sensors onto the cloud, controlling devices by mobile application and the session was interactive.

Highlights of the discussion were:

- Arduino Basics.
- Storing sensor data onto cloud.
- Mobile application.

Overall the students felt that the session was informative & gain knowledge about recent technologies.

One Day Workshop Report

Topic: "3D PRINTING"

By

Mr. Anil M.P

Director & resource person
M/S ASP Designs- Mysore

Speaker with Principal and Faculty

Date: 28.09.2018

Time: 8.30AM to 4.30 PM

Venue: Classroom No. 306, SCE Bangalore.

The workshop on "3D Printing" in collaboration with M/S ASP Designs Mysore, was successfully conducted on Friday 28th September 2018 by the department of Mechanical Engineering. The workshop was inaugurated by Principal, Dr.K.L Shivabasappa & Administrative officer Dr.K.R Nagabhushana at 9.30 AM with the blessings & sponsorship by chairman Sri G.Dayanand, Executive Directors Sri G.D Manoj & Sri. G.D Balaji. The session was attended by heads of departments and also faculty of Mechanical & other departments.

Principal
Sapthagiri College of Engineering
14/5, Chikkasandra, Hosanghatta Main Road
Bangalore - 560 057

About 90 students of 5th semester Mechanical took part in the sessions that included technical talk followed by demonstration and interaction. Director & resource person of M/S ASP Designs- Mysore, Sri Anil M.P. conducted the session very effectively by elaborating on the features of 3D PRINTING as latest manufacturing tend. He also trained the students in batches with practical Demonstrations in the afternoon sessions. He answered several queries by students & faculty.

The valedictory function was held at 4.15PM with participation by Principal & Administrative officer. Workshop was concluded with distribution of certificates to all the participants.

Students and faculty attending the sessions

REPORT ON WORKSHOP

"ARDUINO"

Workshop on "ARDUINO" by Mr. Sanjay Kumar working as Technical lead & his team from Jyothi Labs for 3rd semester students on 28-09-2018 & 29/09/2018, totally 58 students were participated. The speaker provided information on Arduino, an open source electronics platform based on easy to use hardware & software and hands-on session of using Arduino boards inorder to read inputs -light on a sensor, activating a motor, turning on a led etc was provided and the session was interactive.

Highlights of the discussion were:

- Arduino board usage
- Seven Segment Displays
- Multiplexer, Map Entered Variable(MEV)

Overall the students felt that the session was informative & gain knowledge about recent technologies.

Department of Information Science and Engineering

An Expert Talk on "Research Orientation and Academic Project Planning"

Date: 25-9-2018

Department of Information Science & Engineering, SCE, Bengaluru had organized a Research Orientation session for the final year students of Dept. of ISE on **25-9-2018** titled **"Research Orientation"** by **Dr. Harsha S, Associate Professor, Jyothi Institute of Technology, Bengaluru.**

The session was held at Lecture Hall-306 and the inauguration was carried out by Dr.H. R Ranganatha, HOD, Dept of ISE and Prof. PreranaChaitra, associate professor and Workshop coordinator, Dept. of ISE.

Dr. Harsha S, an eminent researcher with wide array of experience in guiding students at various levels to prepare innovative academic projects. Dr. Harsha motivated students with his interactive session that disseminated knowledge of Project planning, resource gathering, formulating research problems through his inspiring talk.

He narrated how students can download resources from public domains instead of relying on some coveted paid resource journals that charge us with exorbitant prices. He also shared his own experience in carrying our Projects for state of UAE on Internet of Things and urged students to bid for such international projects. Overall students of final year were able to orient themselves and surge ahead with the academic project work with this talk.

Guest Lecture Report

Topic: "Network Security & Awareness of "DIGITAL INDIA" and IT Jobs in IT/IMS Industry"

By

Mrs. Sunita Amingad
Technical Manager
Jetking
Bangalore

Date: 22.09.2018

Time: 10.30 am to 12.30 pm

Venue: HDL Lab, SCE Bangalore.

The session began with a discussion on Introduction to the network. Speaker briefed about the topics such as Scope of Network , Working of OSI Model , Firewall , types of routing and security in networking. Hands-on was conducted using packet tracer software on various topics such as wired and wireless communication with security.

The session continued with the introduction to Computer Communication Networking and protocols basics. Speaker explained the different types of networks available and their applications. They also discussed about the usage of open source networking tools. They demonstrated the application and made the session more interactive.

Further speaker suggested the implementation ideas for their project. The session concluded with student's interaction with the questionnaire. Student found the session to be very useful as the lecture covered the topics beyond their syllabus and given idea about practical applications of Computer networks.
