## **SAMARTHINI - Women Empowerment Cell**

### **Government School Visit**

#### **“Importance of Educating a Girl Child to promote Equality”**

The Women Empowerment Cell (WEC) members and student volunteers of Sapthagiri College of Engineering visited the Government Primary School in Ivarakandapura village, Bengaluru on 28/8/2018 in the afternoon to spread awareness about **“Importance of Educating a Girl Child to promote Equality”**. This event was managed by the WEC Convener Prof. Prerana Chaithra. The school children and teachers attended the program.

Generally in the rural areas many think educating a girl is of no significance. Most of them look at girls as future Home-makers and hence they think no education or little education is enough for them. Some have the fear that if a girl is highly educated then she may dominate the family. Many think investing money in daughter's education is a waste as they will be married and send away to her in-laws place. Therefore WEC members spread awareness to the school children about “Importance of Educating a Girl Child to promote Equality” so that all genders are educated with equal opportunities. Girls will insist on higher education and also change the rural belief about educating girls. Even boys who are the future men will bring about a revolution and promote education to their sisters, daughters, relatives, etc.

This program helped to raise awareness about generating girls' sense of self-worth, bring awareness about the facilities available to girls and enhance girls ability to contribute in creating a more just social and economic order.

A visit was made by WEC members to the Government Primary School in Ivarakandapura village, Bengaluru on 28-8-2018 to spread awareness about “Importance of Educating a Girl Child to promote Equality”

## SAPTHA-SAMATHA

### (EQUAL OPPORTUNITIES COMMITTEE (EOC))

#### REPORT ON

#### Awareness Program on Children Safety

Date: 25/09/2018

**Agenda:** To conduct “Awareness Program on Children Safety through Street Play” by Equal Opportunity Committee (EOC)”.

**Objective:** The objective of the Program is to create awareness program among the social backward society children for their safety

#### **Resolution:**

The job of protecting kids most often falls to parents and caregivers, and it is up to them to familiarize themselves with safety risks in and around their homes and communities. Once you know the risks, you can take steps to plan for safety.

According to a news report from 2014, about 135,000 children are estimated to be trafficked in India each year. Trafficked children are sold into slavery, domestic servitude, beggary and for so many illegal activities. Children are kidnapped and often even bought from remote villages, more from impoverished families.

The child trafficking industry is India's greatest shame and yet very little has been done about it in terms of policing. In a number of states, powerful cartels manage trafficking, buying off parents and the police to keep away legal restrictions. According to Childline India, some 1,000 to 1,500 children are smuggled from India to Saudi Arabia each year to beg during the Hajj.

Trafficked children mostly are from social backward people. So EOC of Sapthagiri College of Engineering has conducted awareness program among the children of social backward community.

Our team of faculties and students has explained the Do's and Don'ts to be followed by the children when they meeting a stranger by a good street play.

## SAPTHA-SAMATHA

### (EQUAL OPPORTUNITIES COMMITTEE (EOC))

#### REPORT ON

#### **Awareness Program on Good touch and Bad touch**

*Date: 26/10/2018*

**Agenda:** To conduct "Awareness Program on Good touch and Bad touch, to the Students by Equal Opportunity Committee (EOC)".

**Objective:** The objective of the Program is to provide basic awareness about Good touch and Bad touch among Children.

#### **Resolution:**

In current days, we hear a lot about child abuse and molestation from newspapers and media. So it is the growing concern among parents and teachers about the safety of children. To provide the awareness on good touch and bad touch among the children some of the concepts were covered during program such as Our bodies are unique, Safe and unsafe touch, Trusted circle And Reinforcing the rule form our team.

During the program the following pictures were taken:

Bengaluru - 560 057

During the program, the children were very enthusiastic and interactive. They answered questions and were eager to learn. It was a workshop about how to teach the difference between 'good touch' and 'bad touch'. The awareness program was grand success in terms of participation and learning opportunities and students and our team was happy with it.

## HASIRU CLUB REPORT

<b>Name of the Event organised</b>	No fireworks for healthy and safe deepavali
<b>Date and Day</b>	31/10/2018, Wednesday
<b>Issues addressed</b>	Impact of crackers pollution and waste on aquatic organism, animals and human society
<b>Place of the event conducted</b>	Govt School

### Report:

The HASIRU(Eco club) team and student volunteers organized an event **“No fireworks for safe and healthy deepavali”** at Govt School in association with Community club. The Program was organised and co-ordinated by Prof. Prashanth Kumar H P( Hasiru club) & Prof. Tulsidas (Community club) along with students from both clubs. Students and Teachers of Govt School were informed about the impact about the pollution and waste produced by burning the crackers and was happy for the active participation of college students. Teachers appreciated our students for their honest hard work towards social responsibility and commitment towards the community. The awareness is created among the students and Teachers for proper disposal. A special **‘Say No to Crackers’** Campaign was organised with the aim of creating awareness among the masses about the tremendous air pollution caused due to bursting of crackers. With the noble aim of celebrating ‘Green Diwali’ students pledged to say ‘No’ to crackers and ‘Yes’ to pollution free environment. A Special Slogan was Designed – **‘LETS CELEBRATE GREEN DIWALI’**. The Speech saw lots of enthusiasm among the students as they vociferated slogans and distributed pamphlets to the students by, encouraging them to gift our Mother Earth a tree this Diwali instead of harmful smoke of crackers.

<b>Impact &amp; Sensitization</b>	Clean Area/Village without pollution of crackers is available for Villagers, animals and aquatic animals.

Name of the initiatives	"MEGA HEALTH CAMP"
Name and Address of PU College	Ganga International school Bengaluru
Date and duration of the initiative	10-11-2018
Number of participating students and Staff	580
Issues addressed	Importance of Health
<b>Report:</b> As per the directions of management and principal sir, a team of faculty and in association with <i>Sapthagiri Institute of Medical Sciences &amp; Research centre (SIMS &amp; RC) Bengaluru</i> has organized the " <b>MEGA HEALTH CAMP</b> " at Ganga International PU college. The programme was inaugurated by the principal sir Ganga International PU college and it was Co-ordinated by Prof. Prashanth dept of Bio Technology. Staff coordinators of Sapthagiri College of Engineering and doctors and nurses from SIMS were involved in the program to guide students. The event was gone so nicely because heads of various departments, faculties and around 580 plus students were participated in it. Students were leaned about the importance of health for students in academic institutions. Students were benefitted from this Health camp event.

**PRATHIRODHANA-Prevention of Sexual Harassment Cell**  
**Government School Visit**

**“Protection against Sexual Abuses”**

The Prevention of Sexual Harassment Cell (PSHC) members and student volunteers of Sapthagiri College of Engineering visited the Government Primary School in Ivarakandapura village, Bengaluru on 15/11/18 in the afternoon to spread awareness about “**Protection against Sexual Abuses**”. The school children and teachers attended the program. This event was managed by the PSHC Convener Prof. Prerana Chaithra.

As we are aware a lot of sexual abuses are taking place in the country. Especially children are targeted as they are vulnerable. Their vulnerability is mainly cause of their innocence and tenderness of their physique. Children also lack information about sexual abuses. Many parents, teachers and elders hesitate to tell them about sexual abuses as they think it is inappropriate to tell the children anything related to sex in a way anything about sensual issues. Sexual pervers are taking advantage of the situations and molesting and harassing children and also raping them. Therefore PSHC members spread awareness to the school children about the various types of sexual abuses and molestations and harassments to which the children are subjected to. PSHC Convener Prof. Prerana Chaithra informed the students as to how to protect themselves from such sexual abuses and harassments.

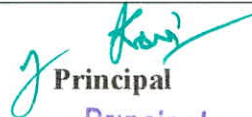

This program helped to raise awareness about sexual harassment in its various forms and to build a secure physical and social environment to prevent acts of sexual harassment.

A visit was made by PSHC members to the Government Primary School in Ivarakandapura village, Bengaluru on 15-11-18 to spread awareness about “Protection against Sexual Abuses” by Prof. Prerana Chaithra, Convener, PSHC, SCE

## HASIRU (ECO CLUB) REPORT

<b>Name of the Event organised</b>	<b>NO HONKING DRIVE IN TRAFFIC.</b>
<b>Date and Day</b>	16/11/2018, Friday
<b>Collaboration or Association</b>	Health club and Community club
<b>Issues addressed</b>	Noise pollution caused by use of car horns without any reason
<b>Place of the event conducted</b>	Traffic signal near college campus

### Report:

As per the direction of Principal, a team of faculty and student volunteers organized "NO HONKING DRIVE IN TRAFFIC" at traffic signal near college. The Program was organised and co-ordinated by Prof. Prashanth (ECO Club) in association with Health club and Community club along with students from both Community and Eco club.

According to the Karnataka State Pollution Control Board (KSPCB), the sound levels of horns should not exceed 84 decibels.

- A car horn's average decibel level is nearly 110dB, which is a serious health hazard as any sound above 60–70dB can result in gradual loss of hearing.
- Noise pollution has become such a serious problem in cities that ENT specialists say that most of the urban population suffers from 20dB hearing loss.
- If a person has chronic exposure to sound above 55dB, the risk of heart disease and stroke increases. As per a WHO study, "One million healthy life years are lost due to traffic noise."
- The problem is worst at traffic signals where drivers start honking without waiting for the signal to turn green or for traffic to move. Drivers show no respect to the law that prohibits the use of horn at traffic signals and other silent zones such as areas near hospitals, schools, religious places and

residential areas. Vehicular honking in cities has reached at an alarming level and contributes approximately 70% of the noise pollution in our environment. According to an recent article of TOI, Four years ago, the city traffic police launched a campaign to get Bengalurean's to start every week sans loud, unnecessary honking. The police recently relaunched the 'No Honking Monday' campaign but it is clear the call has fallen flat and citizens continued to be - as the police would say - 'horn-y'.

SCE has initiated a MOVEMENT against honking. Our battle plan includes putting up 'No Honking' banners, distributing pamphlets, stickers ETC..

## Impact & Sensitization

SCE organizing public awareness campaigns to eliminate noise pollution has been appreciated by good Samaritan's.

## **SAPTHA-SAMATHA** (EQUAL OPPORTUNITIES COMMITTEE (EOC))

### **REPORT ON**

### **Awareness program on women Hygiene**

**Date: 22/02/2019**

**Agenda:** To conduct awareness Program on hygiene for women

**Objective:** The main objective of the program is to provide Awareness on Women hygiene by our Team of students for social backward society women.

### **Resolution:**

Equal Opportunity Committee of Sapthagiri College of Engineering believes that rural woman's health and welfare is of prime importance and conducts menstrual hygiene camps with an aim to create awareness on adopting hygienic practices amongst women. More than 300 million women and girls in India do not have access to safe menstrual hygiene products, endangering their health, curtailing their education and putting their livelihoods at risk. B Women groups are educated on the proper usage and disposal of sanitary pads as well. In these awareness camps, there is also a free distribution of sanitary pads to encourage usage.

Doctors of SIMS interacting with rural women

Bengaluru - 560 057

This initiative is then handed over to an enterprising local woman, who is not only trained to impart awareness but is also supported in setting up of a small manufacturing unit for sanitary napkins. 'We create awareness amongst women with the belief that it will serve the dual purpose of livelihood opportunities to women by making available a low cost product to rural women as well, and enabling them to adopt hygienic practices

Minimization of the medical illnesses related to reproductive tract infections in women and girls..Training and habit formation was given on how to use sanitary napkins and maintain hygiene during periods. Information was given to ensure that the girl child does not miss school which results in reduction in absenteeism.

## SAMARTHINI - Women Empowerment Cell

### Rural Visit

#### “Empower Rural Women to Enhance Equity”

The Women Empowerment Cell (WEC) members and student volunteers of Sapthagiri College of Engineering visited Ivarakandapura village which comes under Hurulichikkanahalli Gram Panchayat, Bengaluru North on 23/2/2019 in the afternoon to bring awareness among rural women about “Empower Rural Women to Enhance Equity”. This event was managed by the WEC Convener Prof. Prerana Chaithra. The aim was to empower rural women in particular.

Most of the rural women confine themselves as homemakers or work in fields. They are not properly educated or have information about the various facilities available for the upliftment of women. Every woman has talent. Her skill set should be enhanced. We must make sure that her potential is utilized in a proper way so that she can be a leader, an achiever and empower the society. In order to bring awareness about various facilities available for women WEC members gave awareness about various facilities available to empower women in order to enhance equity.

This program helped to raise awareness about generating women’s sense of self-worth, bring awareness about the facilities available to women and enhance women’s ability to contribute in creating a more just social and economic order.

A rural visit was made to Ivarakandapura village, Bengaluru on 23-2-2019 to bring awareness among rural women about “Empower Rural Women to Enhance Equity” by WEC members.

# INTRODUCTION

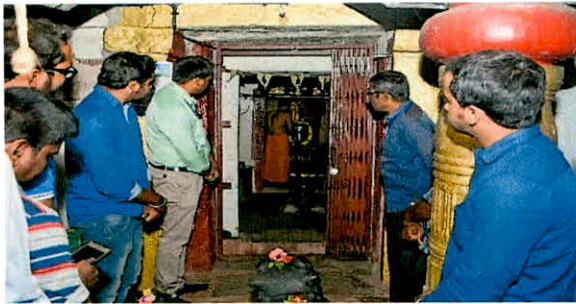

The NSS team of Sapthagiri College of Engineering were all set for the Special Camp, which was held in Ivarakandapura, HuraliChikkanahalli Gram Pachayat. Dr. K L Shivabasappa, Principal, SCE and Dr. K R Nagabhushana, Administrative Officer, SCE addressed the NSS team about NSS and its history, need for NSS, services provided through NSS, benefits of doing service to the society through NSS and also moral values that can be incorporated through NSS. The NSS Special Camp was led by Dr. Tulsidas D, NSS Program Officer, SCE.

Volunteers for NSS comprised of students from various departments of engineering, SCE. Essential accessories for the activities planned for the camp were taken and every student was given responsibility to take care of a particular accessory. All the volunteers were informed about his/her responsibility and the norms to be followed during the camp. With the support of our beloved Principal, Administrative Officer, and Head of Department of various branches, the NSS team set off for the day.

## INAUGURATION& TEMPLE VISIT

The NSS team reached Ivarakandapura and took the blessings of Lord Anjaneya and Lord Shiva. Lord Shiva's temple was centuries old and had history of Mahabharata. The temple also had five incarnations of Lord Shiva.

The NSS Program Officer, Dr. Tulsidas D along with tow volunteers visited the Gram Panchayat and acquired permission for the NSS Special Camp. The NSS team sat down and discussed with the villagers about the improvements that could be carried out during the period of our stay. Out of the many issues expressed by villagers, we chose vital issues i.e., cleanliness, health and education. Keeping the issues intact, we planned the activities to be carried out. According, we prepared the schedule.

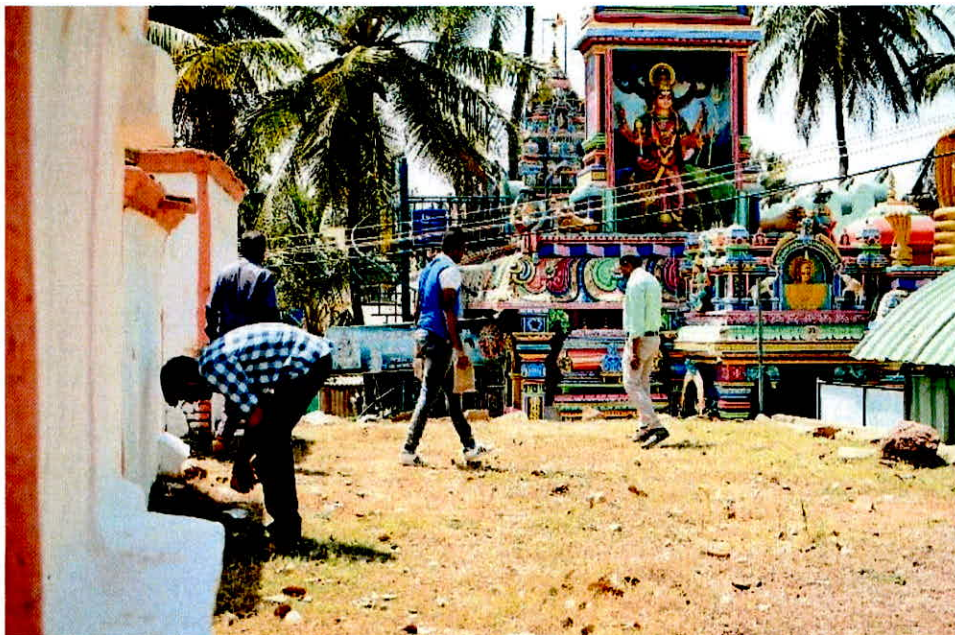

## TEMPLE CLEANING

The first issue that the NSS team took up was cleaning the temple. The NSS team was divided into teams and each team was given a specific location around the temple to clean. The first priority was to make the surrounding plastic-free. In order to achieve the goal, each team was given a bag to collect the plastic around the temple.

After all the plastic was collected, they were all gathered in a place and they were later moved to the municipality garbage truck. The student also unplanted the weed which was grown around the temple and also on the roof of the temple.

## BASIC EXERCISE

The NSS Program Officer, Dr. Tulsidas D explained to the NSS team about the importance of day to day exercise and its effects on health. We were taught few basic exercises that we could perform every day to keep ourselves healthy. The NSS team spent the next one hour exercising.

The NSS team was also learnt few Yoga positions and we also understood the importance of ancient practices in modern life. The NSS team was also suggested to convey this message to the villagers

## SWACHH VILLAGE

The NSS team entered the village and divided themselves as a team and each team were given specific roles to clean.

The first priority of the team was to make the village plastic-free. Each team collected plastic and accumulated in a bag. These bags were put together and transferred to the municipality garbage truck. Also, the teams gathered leaves and piled them in a corner.

## HONEY BEE CULTIVATION

The NSS team were taken to a nearby house where honey bees were bred. A resource person, Mr. Hanumanthappa, told the team about the honey bee culture. He gave information about the types of bees, nature of honey bee culture, environment conditions required for honey bee cultivation, honey yield and honey wax preparation. He also gave us information about the places where we could buy the honey bee crates as well as the honey bees.

Mr. Hanumanthappa explained us the whole process of honey bees making honey. Starting from the type of bee to keep at home i.e., suitable for cultivation, he took us through process where honey bees took nectar from flowers and used it in the formation of honey.

# AWARENESS PROGRAM

The NSS team planned to create awareness about three major issues – Health, Education and Voting. In order to achieve the goal, we created sign boards about each one of these issues and split into teams among ourselves. All the teams went into the village and spoke to village people about the issues concerned with health, education and voting thereby creating awareness among village people regarding these issues.

The NSS team addressed the following:

Health is very important for all and it should be taken care with utmost cautiousness.

All the children must be educated.

Everyone above 18yrs must vote for the overall development of the country.

The teams also gave information about the health camp that was conducted on the last day of the camp.

## TEACHING DRAWING, DANCE AND ENGLISH

The NSS team visited the Government school in Ivarakandapura. We interacted with the students and we got to know their immense interests in the field of arts. Hence, we decided to teach them the art of sketching and dance.

We also recognized the difficulty they were facing when they tried to communicate in English and hence, we chose to teach them basic English.

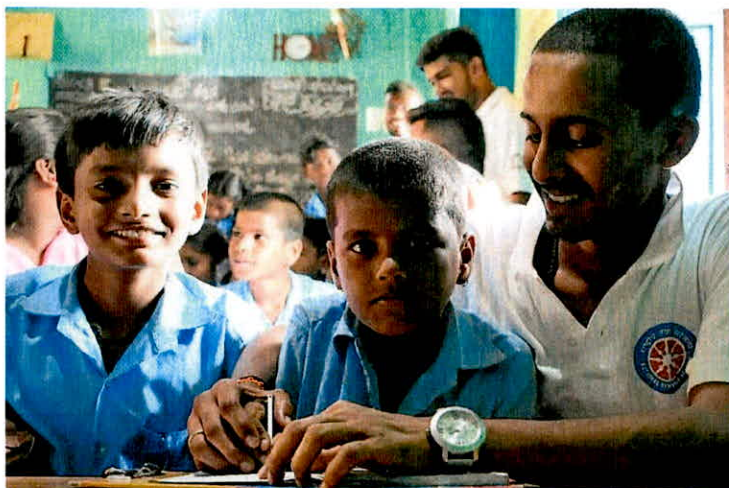

## TEACHING ENGLISH

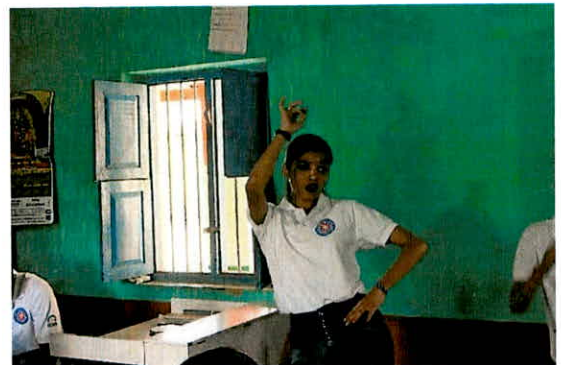

The NSS team recognised the student's struggling to communicate in English. Hence, we chose few volunteers to teach the students basis English. The volunteers taught the students to write alphabets, to introduce themselves in English and also to greet one another.

The volunteers taught them parts of speech i.e., noun, pronoun, verb, adverb, adjective, preposition, conjunction and interjection. The team gave the students a set of statements and explained the different parts of speech for every statement. The volunteers also taught the students numerous rhymes which the students enjoyed a lot learning. The students were also taught the names of different things in English such as table, leaves, tree, chalk piece, stone, pillar, flag, flag post and many more.

## ART of DANCE

The NSS team chose few volunteers who were well versed dancers to teach dance to the students. The volunteers taught the students some basic steps for the songs of their choice. All the students were taught dance steps for a particular song and were made to perform in front of the teachers.

## HESARAGHATTA LAKE CLEANING

The NSS team chose to clean the Hesaraghatta lake. It was summer season and the lake was almost dry and was easier to clean at that stint. The NSS team chose to maintain the same propaganda of making the lake plastic-free. The team was divided into a number of sub-teams and each team went onto clean different parts of the lake.

The volunteers collected various plastics such as chips covers, biscuit covers, juice bottles, liquor bottles and also lot of cloth which were carelessly thrown into the lake. The volunteers collected the wastes in gunny bags and these bags were finally disposed on to a municipal truck.

## TEACHING CHEMISTRY PRACTICALS TO STUDENTS BY OUR COLLEGE FACULTY

The NSS team interacted with the Headmaster of Government School about the problems faced by the students. The Headmaster expressed the lack of faculty to teach chemistry to the students. Hence, the NSS team requested Dr.Gurushanth, Department of Chemistry and Prof. Prashanth Kumar, Department of Biotechnology, Sapthagiri College of Engineering to teach chemistry to the students and the professors obliged.

The professor engaged the students for an entire day and taught the students some basics fundamentals of chemistry and tried to build in them the thirst to know more about the fascinating world of chemistry by performing some basic yet interesting experiments. Professor also made the students understand the connection between the experiment output and the chemical reasoning behind it. The students were thrilled by witnessing the experiments and they expressed their eagerness to know more. The students also asked many questions about the experiment they witnessed and got it cleared. The professor called the students up to the dais and instructed them while the students were encouraged to perform the experiments.

The NSS team requested the management of Sapthagiri Medical College to conduct a one day health camp for the people of the village. On the day of the Health Camp, a team of doctors along with nurses with specialization in eye, skin, ENT, general and gynecology arrived at Ivarakandapura. The Health camp was held in the Government School, Ivarakandapura.

The villagers came in hand and registered in the registration desk and according to their need, they were sent to a particular specialist for treatment. We also provided transportation facilities for the villagers who were unable to walk.

## COMMUNITY CLUB REPORT

<b>Name of Event</b>	Awareness of Pollution and its effects in govt schools.
<b>Date</b>	3.2.2019
<b>Issues addressed</b>	Causes of pollution, ill-effects of Pollution & Preventive measures of Pollution
<b>Place of the event conducted</b>	Govt School Ivarakhandapura
<b>Report:</b> <p>As per the direction of Principal, a team of faculty and student volunteers organized an event “<b>Awareness of Pollution and its effects in govt schools</b>”. The Program was organised and co-ordinated by Prof.Tulsidas (Community club) in association with Prof Ravishankar (Health Club) along with students from both Community and Health club. The staff members and public also participated in the event and were happy in understanding about causes and preventive measures of pollution. The students and children of government schools also participated and were created with awareness about the pollution. The public were shared with the knowledge about pollution causes and preventive measures to be followed by the people to prevent pollution.</p> <p>The doubts from the public as well as the students regarding the pollution were clarified by the experts and further the public were created with the awareness regarding the pollution. Further the ideas regarding the diseases to be occurred by the pollution for the students were addressed and the impact of these diseases on the children were addressed.</p>	
<b>Impact &amp; Sensitization</b>	Awareness for public, staff and students regarding the pollution.
<b>Faculty Coordinators</b>	Dr.Tulsidas D

## HASIRU (ECO CLUB) REPORT

<b>Name of the Event organised</b>	<b>SWACHH SAPTHAGIRI ABHIYAN</b>
<b>Date and Day</b>	14.03.2019
<b>Collaboration or Association</b>	Health Club & NSS
<b>Issues addressed</b>	Cleanliness of surroundings
<b>Place of the event conducted</b>	SCE surroundings
<p>A campus cleaning programme was conducted by HASIRU Eco club in collaboration with Health club and NSS wing on 14<sup>th</sup> march, 2019 at the Sapthagiri College of Engineering. A total of 100 volunteers participated in the programme. Dr. K N Ravi HOD of Electrical department initiated cleaning activities among volunteers. He motivated students towards '<b>Clean India</b>' by his inspirational talk. The volunteers cleaned the entire campus wearing gloves and collected all the litter in big bags for disposal. The volunteers were instructed to clean their hands with soap at the end. Refreshments were distributed to volunteers. Programme officers carried out all the arrangements along with the Programme Coordinators for the smooth conduct of the programme.</p>	
<b>Impact &amp; Sensitization</b>	Students got the awareness on keeping the surroundings and environment clean.
<b>Faculty Coordinators</b>	Dr.Tulsidas D, Associate Professor, Prashanth Kumar HP, Assistant Professor.

## HASIRU-ECO CLUB REPORT

<b>Name of the Event organised</b>	Awareness on Dengue and Malaria
<b>Date and Day</b>	02/04/2019 Tuesday
<b>Issues addressed</b>	Prevention of Dengue and Malaria
<b>Place of the event conducted</b>	Govt School
<b>Report:</b> <p>A team of student volunteers organized an event “<b>Awareness on Dengue and Malaria</b>” at Govt School. The Program was organised and co-ordinated by Dr. Tulsidas (Community club) and Prof. prashanth kumar H P(Eco Club) along with student volunteers. Students and Teachers of Govt School were given information about the cleanliness to be maintained for preventing Dengue and Malaria. The teachers were happy for the active participation of college students. Teachers appreciated our students for their honest hard work towards social responsibility and commitment towards the community. The awareness is created among the students and Teachers by conducting a session on dengue and malaria prevention, will learn more about measures to stay healthy and what all to do in case of infection. The students are taking active steps to spread awareness, participating in making a change, and practicing preventive measures in their daily lives.</p> <p>The awareness programs can deeper only in schools. School students are better equipped to understand the reasons behind the preventive steps they are to take than the general public out there. They can better understand the difference in species that lead to the spread of those diseases, how they fly around at different times of the day and how fever along with headaches are symptoms on one disease but not the other. School students are in a better place to persuade their parents or anyone in the society to visit a clinic for they know the science that goes on in the backdrop and can put forth logical arguments to anyone</p>	
<b>Impact &amp; Sensitization</b>	Clean Area/Village with proper measures to prevent Dengue and Malaria
<b>Faculty Coordinators</b>	Dr.Tulsidas D & Prof. Prashanth Kumar H P

## SAPTHA-SAMATHA

### (EQUAL OPPORTUNITIES COMMITTEE (EOC))

#### REPORT ON

#### **Awareness Program on Government Schemes for Women**

*Date: 25/04/2019*

**Agenda:** To create “Awareness on Government Schemes to Women” for social backward women.

**Objective:** The main objective of the program is to create awareness and explain about benefits of Government schemes to social backward society women.

#### **Resolution:**

India is a land of customs, tradition and practices which have been developed through centuries to centuries. These customs, tradition and practices become the consciousness of our society. But at the same time, we can't ignore the patriarchal system of our society and male superiority. In fact, principles of gender equality are enshrined in our Constitution. The Constitution of India not only grants equality to women but also empowers the State to adopt measures of positive discrimination in favour of women.

So, Equal Opportunity Committee of SCE has conducted awareness program on schemes which are given by government for welfare of women from social and economic backward society.

The Schemes such as “One Stop Centre Scheme”, “UJJAWALA”, “Rajiv Gandhi National Creche Scheme for the Children of Working Mothers”, “SWADHAR Scheme”, “Nari Shakti Puraskar” etc., procedure and benefits of these programs.

## PRATHIRODHANA-Prevention of Sexual Harassment Cell

### Rural Visit

#### **“Protecting Children against Sexual Harassments”**

The Prevention of Sexual Harassment Cell (PSHC) members and student volunteers of Sapthagiri College of Engineering visited Ivarakandapura village which comes under Hurulichikkanahalli Gram Panchayat, Bengaluru North on 27/4/2019 in the afternoon to bring awareness among rural women about **“Protecting Children against Sexual Harassments”**. This event was managed by the PSHC Convener Prof. Prerana Chaithra.

Sexual Harassments against children can be prevented by taking appropriate actions by the family members, elders, teachers and the society. We can save children from brutal perverts. In most of the cases sexual harassment on children are committed by the persons close to the children. Many of these perverts will be the child's relative, neighbor or family friend or from the same locality. These criminals take advantage of the vulnerability of the children. Even the parents and elders ignore the various sexual abuses and harassments children face. There are many cases where the mother or women in the family will be aware of the sexual harassments the child has undergone and still they do not protest because of the fear of the family respect in the society. In order to bring awareness about child safety first next PSHC members gave awareness as to how to protect children from sexual harassments and the significance of the role played by women and family members in safe guarding the children.

This program helped to raise awareness about sexual harassment in its various forms and to build a secure physical and social environment to prevent acts of sexual harassment and to create Zero Tolerance to sexual abuse of any form.

A rural visit was made to Ivarakandapura village, Bengaluru on 27-4-2019 to bring awareness among rural women about “Protecting Children against Sexual Harassments” by PSHC members.
