Dear Adarsh Kalyampudi,

Congratulations! I am pleased to notify you that you have been unconditionally admitted to the Department of Computer Science in the College of Natural Sciences and Mathematics at the University of Houston for the Computer Science, MS program.

We would appreciate your decision as soon as possible, but **no later than April 15, 2019**, or **no later than two weeks** from receiving the Admission Decision notification email, whichever date is later.

In order to accept or deny our admission, you will need to log into your online application dashboard and complete the Decision Form. The Decision Form allows you to 1) Accept the admission offer or 2) Decline the admission offer.

Based on your transcript(s) and the prerequisite/deficiency requirements of our program, the admissions committee determined that you need to take the following COSC deficiency course(s): **NONE** within the first two semesters after you enroll into our graduate program, and obtain at least B- or better grade. In lieu of course completion, the department also offers placement exams for deficiency courses. Please visit our website to view the details of our placement exam procedures.

If you have any questions regarding the details of your admission, please do not hesitate to contact your admissions advisor, Yvette Elder at yelder@uh.edu.

If you are an international applicant who requires a Form I-20 for your F-1 visa, please note that the I-20 request will be processed as soon as you have **accepted** the admissions offer and submitted all required documents.

Your myUH ID is located above and is important because it is now your direct connection to managing a wide range of student activities and services - including enrolling in courses, viewing grades, making payments, viewing academic records, and much more. You can familiarize yourself with your AccessUH portal by clicking here. I would also recommend familiarizing yourself with the Graduate Catalog and requirements for your degree plan.

It is the policy of the College of Natural Sciences and Mathematics that all graduate students

Principal

Sapthagiri College of Engineering

must maintain continuous enrollment in every Fall and Spring semester. University policy requires that MS students complete their degree within five years of the date of initial enrollment and that PhD students complete their degree requirements within ten years. As specified by the State of Texas, PhD students must complete all degree requirements within 100 PhD semester credit hours or be prepared to pay premium tuition for the additional hours.

Please note, before enrolling in courses, all new graduate students must submit official proof of a completed Bachelor's degree. Students who have earned a three-year Bachelor's degree must also submit official documents for their Master's degree. If we have not received a completed academic record for you, you will not be able to enroll in classes at this time. If you have any questions regarding what materials are missing or how to establish proof of degree, you may contact gradschool@uh.edu.

On behalf of the administration, faculty, and staff, welcome to the University of Houston! We look forward to you joining us this next semester.

Sincerely,
