FOUNDATION COURSE-COMPUTER SKILLS FOR OF BACHELOR OF MEDICINE AND BACHELOR OF SURGERY (MBBS) STUDENTS"
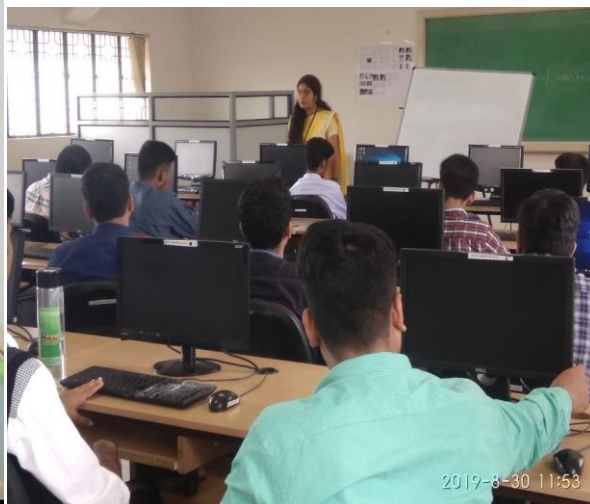

Date: 29-07-2019

The objective of "Orientation Course" is to provide the fresh faces of Bachelor of Medicine and Bachelor of Surgery (MBBS) students a chance to explore the various opportunities available to them at Sapthagiri College of Engineering from the perspective and experiences of the existing teachers, to make students to learn basic principles of computer and application software. This foundation course was conducted in the SCE Campus for 12 days.

The day began with the new students having a chance to build their network by greeting and meeting each other before the beginning of the induction program. The students walked out of the "Orientation Course" with smiles on their faces and excitement in their hearts after gaining an invaluable insight into basic principles of computer and application software from Computer Science and Engineering department at Sapthagiri College of Engineering.
