All the events were conducted successfully & sensitized the student members of HASIRU (ECO CLUB) and different communities like school students and villagers for Clean India. In the College campus, space was identified for parking of two wheelers and four wheelers by NSS and ECO-club members & made a parking lanes and zones. The campaign on save fuel for better environment in students as well as the public was a prime importance for sustainable environment. Seminar signifying about energy conservation and renewable resources sensitized students for energy conservation. Essay competition on Climatic change brought many students with lots of new and novel ideas for conservation of ecology. Our main objective of sanitation and maintaining a healthy environment for students and community was appreciated by village community, management and others.
