Report of talk on workplace communication skill

Introduction

This talk on workplace communication skills focus on both verbal and non-verbal communication. Whether written or spoken, reading, or listening, these skills are crucial in any workplace and can make you a better, more effective and more efficient employee. They are several ways to improve communication skills. As an office staff it is mandatory for one to know the basics and have a core idea in order to satisfy the purpose of work and establish an acceptable conclusion. The workplace communication skill gave this opportunity to the office staff to enhance their knowledge in communication with the persons. The workplace communication skill programme summarized the aspects relating to the traditional communications. This workplace communication skill intended to orient participants towards developing their own ideas with due attention to every stage of communication.

Objectives

The major objectives kept in mind while framing this talk on workplace communication skill were as follows:

- To build friendliness.
- It offers a stimulating clarity and concision.
- Open-mindedness.
- Listening and Non-verbal communications.

The programme was attended by 11 participants on 06/08/2018 from Sapthagiri College of Engineering. Attendees included only Office staff from varied background. While designing the structure of the programme it was kept in mind that there are going to be people from different background that's why emphasis was given on workplace communication skill as a whole not pertaining to one single field so that maximum can be benefitted out of it.

Summary

The speaker explained what workplace communication skill was all about. She connected things starting from the verbal to non-verbal communication. She described how the process of workplace communication skill takes place in the college. She emphasized on the framing of the workplace communication skill and held it to be the fundamental and initial step to adopt all the staff. She made the sessions interactive and based on various examples for better understanding of the workplace communication skill. Last but not the least when the houses were open for questions the office staff were keen to ask and with the same level of enthusiasm they were justifiably answered by professor.
