Academic Year: Odd /2017- 2018

Department of Civil Engineering

WORLD WATER DAY

Date: 24/04/2018

Water is the main constituent of earth's oceans, lakes etc. Water is basically a tasteless, odourless, colourless chemical substance that is used for multipurpose utilization. Today that is on 24/04/2018 in Sapthagiri college of Engineering from Civil department, "World Water Day" was celebrated. The main agenda of celebrating world water day is to create awareness regarding saving water for future use.

The celebration included the dignitaries like the Dr.K.L Shivabasappa(Principal), Suvarna (Head of the Department of Civil Engineering), Dr.K.L.Nagabushan (Administrative Officer) and the chief guest Dr.Ramaraju H.K(Head of the Department Dayanand Sagar College of Engineering) . This program had a igniting start by lighting a lamp followed by a welcome speech. Students of Sapthagiri College of Engineering of Civil department also presented a short movies which gave a message about saving water by avoiding unnecessary flow of water from the tap and rain harvesting. As a part of Celebration, a technical talk was organised from the chief guest Dr.Ramaraju H.K Head of the Department, Dayanand Sagar College of Engineering.

The technical talk gave a tremendous knowledge about the comparison between the geographical survey map obtained in 1950 and the map in 2018, which lets us know the deforestation areas in our country and where exactly is the problem of scarcity of water. The talk also gave the precautions to be taken to prevent drought. Also conveyed the message about how one can overcome the problems in drought areas. Dr. Ramaraju H.K also gave enormous examples through his talks regarding saving water, rain harvesting, afforestation, drought affected areas which has made a blue print in the minds of students, faculties regarding conserving water for present use and future use. Civil department of Sapthagiri College of Engineering is really glad to have such a wonderful talk from an expert like Dr.Ramaraju H.K.

After the technical talk, Dr.Ramaraju H.K was honoured by the dignitaries and the celebration came to an end. Even though the celebration of "World Water Day" came to an end for today, the importance of water, precautions to be taken to not to waste water, rain water harvesting will remain in the minds of the people assembled and also will be put into practice for the betterment of individual and the betterment of the society.
