Every event was conducted successfully to sensitize the students and the community for better tomorrow. Awareness campaign on problems faced by women during pregnancy was done with Health club, Campus cleaning and Swacch Barath drive was carried out in association with NSS and community clubs. Cleaning the surrounding area near the college premises was very critical and students participation was very much appreciated. Our main objective of sanitation and maintaining a hygienic and healthy environment for students and community was met and management appreciated it. My personal thanks to NSS coordinator & Community club convener for their constant support.
